ENCOURAGING REPORTS FROM FRUIT GROWERS

Residents of Adjacent Districts To Assist in Preparing An Island Exhibit

That the fruit growers of the agricultural districts in the vicinity of Victoria are a unit in their determination to do everything possible to make the Vancouver Island exhibit at the Winnipeg, Regina and Brandon fairs creditable in every respect is the report made by T. W. Martindale, the agent of the committee in charge, who has just returned from a tour among the islands, through the Saanich peninsula and the Cowichan valley.

Mr. Martindale states that everywhere he went he was received with courtesy and the proposal to send a display representative of the agricultural districts of the southern end of the island to the prairie provinces was heartily endorsed.

The farmers of Salt Spring and the adjacent islands, it was found, would not be able to help to any material extent. The exceedingly dry weather, which had been experienced since spring, Mr. Martindale says, has given the fruit crops there somewhat of a set-back and he doubts whether the cherries, the early plums, or any other of the varieties it was expected would be procurable in time for display during July, when taken from the orchards of that section.

It was different, however, in Saanich. There he found the small fruits well on towards maturity and giving every promise of being ripe in time for the Winnipeg and the following exhibitions. The same was the case in Cowichan.

Under the circumstances he anticipates little or no difficulty in compiling a collection that will make up a display which will be admired and upon which the fruit growers of that part of the west may look with pride.

Mr. Martindale says that it is his intention to start immediately with the work of getting the fruit exhibit together. He is busy at present in arranging for the preserving of fruit selected from the orchards of the neighborhood. He says that he has managed to obtain some creditable specimens of fruit on branches. These will be bottled in their natural condition so that spectators will be able to obtain therefrom an idea of their appearance in their native state.

These entrusted with the arrangement of the floral, bulb and shrubby features of the exhibit are equally as energetic as Mr. Martindale. It is believed all will be ready for shipment in plenty of time for the exposition to be held at Manitoba's capital.

Hewitt Mine Sold

Nelson, June 14.—The Hewitt mine, near Silverton, owned by Vancouver men, and worked for several years under lease by M. S. Davys, of Nelson, has been sold. The purchasers are New York capitalists represented in Nelson by Oleott Payne. The deal was negotiated by C. V. Hall, of Nelson. The terms of the sale are withheld for the present.

No Dividend.

New York, June 14.—The directors of the United Railways Investment Company have determined that it will be inadvisable at present to take action with respect to the semi-annual dividend on preferred stock, which are ordinarily payable in July. This step was taken, it is said, in view of the existing situation in San Francisco, and to the end that the investment company might be enabled to afford to the United Railways of San Francisco the fullest measure of support. The dividends on the preferred stock has been at the rate of 2½ per cent annually, the last two having been paid in scrip.

Four Japanese Come.

San Francisco, June 14.—The passage of the law restricting Japanese laborers from the mainland has practically eliminated the immigration of that class of Asiatics," said Commissioner of Immigration North yesterday. "The arrivals have dropped to almost nothing at the present time. The arrivals from Japan during last month were ninety-four males and twenty-one females."

Grand Forks Licenses

Grand Forks, June 14.—War was declared today by hotel men of Grand Forks on license commissioners as a result of a meeting of the commissioners last evening when the licenses for the Grand Forks and Square hotels were ordered canceled. A bitter feeling exists and A. C. Sutton has been retained to contest the action of the licensing commissioners.

U. S. LANDS OPENED

Big Tracts in Montana and Alaska for Settlers

Washington, June 14.—By order of the secretary of the interior there will become subject to settlement on September 30, and to entry on October 30, 1907, about 2,380,000 acres of land in Alaska. The land restored was withdrawn on June 30, 1903, for the proposed Norton bay national forest, and is situated immediately on the north shore of Norton sound, north of 84° north, and about fifty or sixty miles south of the Arctic circle in the Juneau land district.

Other restorations have been made as follows:

About 250,240 acres, temporarily withdrawn for the proposed Deep Lake and Rukh mountain national forest, and for an addition to the Helena national forest, Montana; about 225,000 acres withdrawn for an addition to the Madison forest, Montana; about 120,640 acres withdrawn for forestry purpose near the Snowy Mountains national forest, Montana; about 230,000 acres withdrawn for an addition to the Pryor Mountains national forest, Montana; about 20,320 acres near Bitter Root forest, Montana.

EXAMINATIONS FOR INSPECTORS OF STEAM BOILERS AND MACHINERY

Examinations for the position of Inspectors of Steam Boilers and Machinery, under the Steam Boilers Inspection Act, 1906, will be held at the Parliament Buildings, Victoria, commencing on Monday, June 24th, 1907. Application and instruction forms can be had on application to the undersigned, to whom the forms must be returned, correctly filled in, not later than June 17th. Salaries, \$110 and \$115 per month.

JOHN PECK,
Chief Inspector of Machinery,
New Westminster, B.C.

Perkins Escapes Indictment.

New York, June 14.—A special grand jury, which is dealing with the insurance cases returned a finding discharging the complaint against George W. Perkins in connection with dealings in the bonds of the International Mercantile Agency.

Guilty of Murder.

Norfolk, Va., June 14.—After a lengthy trial behind closed doors the trial of Leo C. Thurman, apprehended in Vancouver several months ago, has ended in the jury finding a verdict of guilty in the first degree. The sentence of death will be pronounced in a few days, and the circumstances of the case are such as seem to forbid any hope of executive clemency. It is also improbable that the convicted man will be able to appeal his case, owing to the financial circumstances of his family.

Chicago Wants Convention.

Chicago, June 14.—Plans to raise a fund of \$50,000 to secure for Chicago the two national political conventions next year will be held at once by a joint executive committee representing both Republicans and Democrats. At a conference yesterday morning the special committee from the Hamilton Club, the Tremont Club, the city council and representatives of the Chicago Commercial Association met and the following resolutions were adopted: Chicago stood excellent chances of landing the big gatherings if a suitable hall of sufficient seating capacity can be guaranteed.

Bad Man Arrested.

Okanogan, Wash., June 14.—Johnnie McLean, the notorious half-breed who was released from the Walla Walla penitentiary last winter, was arrested yesterday, charged with killing William Cameron, a white man. Cameron and McLean left here Tuesday night for a trip over the Colville reservation. Wednesday McLean returned alone. In a drunken condition he told William Ambrose, an Indian, that he had killed Cameron. An investigation followed, and Cameron's body was found secluded under a heap of brush near a small lake, about eight miles from Okanogan. McLean was taken to the county seat and an inquest will be held over the body of Cameron.

Old Soldier's Death

Spokane, June 14.—John Mason, aged 88, who fought under Gen. Wolsey and received the Victoria medal for gallant services in 1853 in South Africa, died here today. For the past twenty years he has been a resident of Spokane, for nineteen years being sexton of All Saints' Episcopal church. As sergeant he was present with his company at the coronation of Queen Victoria. He joined the English army at the age of 17, and served thirty-two years. He has no relatives.

Blown to Pieces.

Bellingham, Wash., June 14.—The body of an unidentified man was found yesterday near Marysville. The body was literally blown to pieces. About 5 o'clock neighbors heard an explosion and later the body was found by boys. The legs and arms were scattered all over the lot. There was not enough left of the body to form a basis for identification. He had a note book in his pocket with the address of a Mr. Bailey, Olympia. The man apparently was aged and a cane was found near the remnants of the body.

Attacks on Jews

Berlin, June 14.—Private dispatches from Odessa report that the case of the local Jews is as desperate as it was before the latest massacre. The Black Hundreds are assaulting the Jews in the streets. Many are wounded and the hospitals are crowded. The fresh outbreak of violent anti-Semitism is attributed to the governor general, Glogolow who declared that a Christian named Mephoff who was ostensibly attacked by the Jews was tortured and scalped. Mephoff is said to have denied that his assailants were Jews and examination of his body reveals that he was not scalped, but his hair was simply shaved off in spots. Jewish leaders at Odessa are convinced that the government trumped up the story to incite the population anew against the Jews.

Found Lover Dead.

North Yakima, June 14.—A romance which had its beginning ten years ago in old Norway had a sad termination here, when a young woman, Elma Lundquist, arrived in the city from the coast to learn her fate. She died on the previous day. The wedding was to have taken place tomorrow, but instead of a wedding feast there will be a funeral.

In Norway the two young people were sweet hearts in early days. Carl Johnson left home to make his fortune in America and he pledged his troth to the girl. After years of hard work Johnson won a good position for himself here, and as soon as he had paid for a fine orchard on Now Hill he sent for his sweetheart. Shortly after writing for the girl to join him, Johnson met with an accident which proved fatal. He was struck by a derrick and lingered between life and death for two weeks, and died yesterday on the eve of his wedding day.

Baby's Corpse Found.

Yale, June 14.—The body of a newly born baby was picked up alongside the C. P. R. track a few miles east of this place by some section men. It was brought here and turned over to the government agent, and an investigation is being made. The body was wrapped in a napkin, rolled in between a rug and the parcel tied with wrapping twine. From the position in which the tiny corpse lay in the brush it is certain it was thrown from some passing train. It is not believed that the child was born on the train, but it is thought its birth occurred at some point along the route, and an effort at concealment of the body was made by some person and thrown from a train. The provincial police will take the case up.

ASSAULTS ON JAPANESE

Consular Report to Be Made Public at Tokio Today

Tokio, June 14.—A consular report dated May 25, which tells in a graphic but unsensational manner the facts connected with the recent assaults upon Japanese in San Francisco, will appear in the Japanese press here tomorrow, and some expression of public indignation is expected. It is likely, however, that the papers will omit the official advice given them yesterday of refraining from the publication of any inflammatory matter, as any action in defiance thereof means punishment provided for in the press laws.

To Visit Victoria.

Vancouver, June 14.—C. B. Alderdyce, managing editor of the Montreal Weekly Star, will probably go to Victoria tomorrow.

Halifax, June 14.—Matthew G. Murphy, who for the past year has been chief clerk to W. H. Howard, district passenger agent of the Canadian Pacific railway at this point, has been appointed general travelling passenger agent of the Canadian Pacific railway's western lines, under C. E. E. Usher, assistant passenger traffic manager, headquarters at Winnipeg. This is a new office in connection with the Canadian Pacific and the duties will be onerous.

Schmitz Goes to Jail.

San Francisco, June 14.—Ball was denied Mayor Schmitz and the court ordered that he be placed in jail.

Tesla's Tower Seized.

New York, June 14.—Because Nicola Tesla failed to satisfy a judgment of \$1,108, the mysterious tower at Wardenclyffe, L.I., has been advertised for sale. Mr. Tesla says the matter will be settled.

Tragedy in Los Angeles.

Los Angeles, June 14.—Frank T. Edison, lodging-house keeper, yesterday shot his wife and instantly killed her, and then blew his head off. He was 50 years old and his wife 45. The couple frequently quarrelled over financial matters. They came from Oskaloosa, Iowa, some time ago.

Killed by Revolutionaries.

St. Petersburg, June 14.—Col. Kotof, deputy commandant of the port of St. Petersburg, was murdered this morning by a workman in the admiralty section of the city. The colonel was recently sentenced to death by the revolutionary fighting organization because he recommended a reduction of the working force in the admiralty works. The assassin was arrested, but it is believed that he had accomplices, who escaped.

KILLED BY AN OFFICER.

Assault Results in Tragedy Near Dalhousie, N. B.

Dalhousie, N. B., June 14.—On Thursday Mr. Boyle, while driving with his wife and child, was attacked at Balmoral by three men, who gave him a severe beating. Police Officer Seely, of Dalhousie, went to arrest them. One of the men, Peter Fountain, took an axe, and Officer Seely drew his revolver and fired through Fountain's body. Although fatally wounded, the man broke away, but was recaptured and died later. The others were charged and have not as yet been recaptured.

Muscles vs Brains

"The muscles are of primary importance, brains of secondary importance," declared J. A. Cockburn, who presided at the annual meeting of the national training teachers at Blackpool, England. "Our whole knowledge of the world comes to us through the muscles, and is remembered by the muscles." "The muscles' memory is the essential part of memory. Not only physical force lies there, but the mind of real memory is there. It marks out his mind and defines his character. But for muscular movement people would never have had any brains worth talking about." "Constructive, creative and originality will be the requirements of the future, and the class room ought to be the adjunct of the workshop. Hitherto the cart has been before the horse. The child instinctively recognized the importance of muscular motion, and despite his teacher exercised his powers in that direction."

Doubted the Story.

Harper's Weekly. The German's incapacity for humor is more proverbial than his aversion to ventilation, though perhaps less real. A year or so ago an American student in Berlin was attending a lecture in a room drowsily close. To keep awake he began to nod, and a German at his side the story of Mark Twain about the man who lived all his life in a chronic fear of fresh air. The relatives of this man, as is well known, decided after his death to have his remains cremated; and the climax of the story occurs when the undertaker, opening the door of the oven to see whether incineration was complete, was appalled to hear the corpse speak out and request him to close the door and shut off the draft. The American sprang the joke as effectively as he could. But never a smile was his reward. His German friend remained for several moments in a perplexed study. Then he leaned over to the American and said: "But how could that be? The man was dead!"

An Independent Candidate.

Toronto Star. Esten Williams describes himself as West York's independent candidate, with a Labor platform. He is counted upon by the "silent" vote to elect him, and meanwhile he is being anything but silent himself. At Woodbridge Monday evening he held what Louis F. Heyd describes as a "trip-nodder" or a "meeting." Mr. Heyd was there, and should know. There are to be more meetings. "They'll think I'm a regular Reformers," laughed Mr. Williams today, but I'm not. These men are personal friends of mine."

Mr. Williams bent forward in his chair, and talked politics by the yard. This blue-eyed man with the light hair already whitening, the sharp-cut mustache, the face with its high cheek-bones and wide jaw, winks something of being masterful, but his manner is persuasive, and he does not want for gestures. He gives the impression of being a man-medley; capable, many-sided, friendly, yet full of a certain being, full fellow, well met; certainly not the familiar or garden type of glad-hand politician, perhaps not a politician at all. He does not pretend to be that, and it is well. Canny he may be, but his strategy would hardly take the form of shuffling his worst enemy on the back, and asking for a vote. In fact, Mr. Williams couldn't "bluff" worth a cent, and that is exactly where he would fall down as a professional politician.

New Brunswick University.

Frederickton, N. B., June 14.—Dr. Philip Cox, of Canham; Wm. P. Cartmel, of Greenwell, Eng., and Charles McDonald Carson, of London, Ont., were appointed by the senate of the University of New Brunswick today to fill the vacancies in the chairs of natural history and geology, electrical engineering and chemistry respectively.

HE TRAVELS IN SECTIONS.

A Diplodocus, Who Weighs Tons, Goes in Twenty-five Pieces.

Although he is the largest passenger who has ever crossed the Atlantic, the Hamburg-American Steamship Company is taking A. Diplodocus to Germany on the express steamer Pennsylvania without charge. There are tons of him, for he is of fossil tendencies and is embedded in cement. On account of his great age and the fact that he is for the public museum at Frankfurt, he will travel on a complimentary ticket by the water route and will get the courtesy of a free pass over the railroads to his destination. He will be the first dinosaur of anything like his size to be shown in Europe.

He is sixty feet long and beneath his body is a clear space twelve feet high, which forms an imposing archway. The great lizard wandered over many parts of the American continent, making life a nightmare for some of the smaller species and taking up more room than his carnivorous enemies thought he was entitled to.

GERMAN ROYAL SCANDAL.

Prince Frederick Henry Banished by the Kaiser.

Berlin, June 13.—The entire German empire has been shaken to its foundations by the disclosures in the Eulenberg scandal, the most recent development of which is the degradation of Prince Frederick Henry of Prussia by the Kaiser, who has banished him from Germany forever on account of his extreme immorality.

When undisputed evidence of the prince's guilt was presented to the Kaiser, the emperor summoned him to the palace, where the charges were read. Emperor William personally tore off his cousin's orders and decorations, slapped him, and ordered him never to return under penalty of imprisonment.

In 1898 Prince Frederick departed for Egypt. The scandal is all the greater because Prince Frederick always posed as a pious man. He is a son of the late Prince Albrecht, regent of Brunswick, and inherited seven millions. Berlin is ringing with accounts of the black rites and excesses practiced at Eulenberg's "round table."

A number of dismissals, two divorces, a suicide and other entanglements have resulted on account of the affair.

Edmonton Packing Plant

Edmonton, June 13.—Work was begun in earnest on the big packing plant and canning factory that is to be erected northeast of the city by the J. Y. Griffin company, and all doubt of the reality of the undertaking is permanently settled. Last Friday Oakes & Michaels began excavating for the foundations and later eighteen teams and thirty men were at work and the excavating already sunk from two to three feet over the area of the foundation. Work is in progress upon the spur line from the C.N.R., which is within 400 yards of the site of the factory. The main spur line with seven sidetracks, which are to be constructed will be laid in an excavation four feet deep in front of the factory. The company expects to employ about 30 men from the beginning and eventually will require 1,000 men to carry on the work of the enterprise.

A board of trade has been organized at Brighton, Ont.

Mrs. Adams, of Wolfe Island, is dead, aged 100 years.

Sir Charles Rivers-Wilson, president of the G. T. R., will arrive at Montreal next month to inspect the system.

SHORTER THAN PANAMA ROUTE

New Canadian-Mexican Steamship Service Has Great Possibilities

MEANS BIG SAVING IN TIME

Will Take Less Time to Tranship Goods Over Railway Than For Ships to go Through Canal

Officers of the steamer Georgia, which has just completed her initial trip to Mexico in the new Canadian-Mexican steamship service, state that a great change has resulted in the Pacific carrying trade as a result of the operation of the Tehuantepec railway from Salina Cruz, the Mexican terminus of the line. Not only do they expect this line to be a rival of Panama, but also a successful rival. It is estimated that a day will be occupied by a steamer going through the Panama canal, while freight can be taken from one steamer and loaded on another after being carried across the isthmus in 24 hours, but by doing so four days is saved in the distance to be traveled at sea.

The harbor works being made at Salina Cruz are remarkable. There is no natural shelter and an outer or refuge harbor had to be built, as well as an inner harbor with wharves and drydocks. At Salina Cruz will be one of the largest and most remarkable drydocks on the Pacific coast. It is built in the solid rock, dug out by big cutters and the most modern methods. It is walled stone and concrete. With its length of 630 feet, a width of 70 feet and a depth of 17 feet, it is almost large enough to accommodate any ship that visits the Pacific. The harbor works at both ends of the line have cost \$5,000,000.

The isthmus of Tehuantepec lies between the parallels of north latitude 16 degrees and 18 degrees and the meridians of west longitude 94 degrees and 95 degrees. It is about 500 miles north of the Panama isthmus, and about 90 miles west of that route, and averages about 150 miles in width, as compared with about forty-five for Panama. The climate notwithstanding the latitude, is generally temperate, and there are times of the year when the mercury in thermometers falls as low as 57 degrees, and even in the hot months the temperature seldom rises above 97 degrees.

It is 1200 miles nearer than the Panama route. By way of the Canadian-Mexican steamers and the Tehuantepec railway New York is 5675 miles distant from Victoria and freight can be carried by this route more cheaply than by railroad across the continent. A table of distances in miles prepared by the Mexican government shows the apparent advantages of this connection over the Panama route.

Via Tehuantepec
Panama
Panama

New York to San Francisco	4,325	4,107

New York to Anchorage	7,242	8,388
New York to Montreal	3,245	1,625
New York to Hongkong	11,587	12,645
New York to Yokohama	9,981	11,211
New York to Melbourne	11,998	14,471
New York to London	4,325	7,105
New Orleans to San Francisco	3,245	2,415
Liverpool to San Francisco	8,271	9,961
Liverpool to Honolulu	9,865	10,670
Liverpool to Yokohama	13,245	14,115
Liverpool to Melbourne	15,115	16,415

The shortness of the new route is admitted, and it is only needs to be shown by practical experience how cargoes can be handled and transhipped quickly and economically. The projectors estimate that facilities established at the terminal ports will permit of a cargo of 500 tons being transferred from a vessel to the cars at Salina Cruz in ten hours, and the transport across the isthmus will not require more than three or four hours, and that another ten hours will be sufficient to allow the cargo to be transhipped at Coatzacoalcas, making a total of thirty-four hours.

In common with the numerous trans-isthmian projects, the Tehuantepec railway has an old and interesting history. So far back as 1844 Augustin Cramer, an engineer who had been sent by the Spanish viceroy to the isthmus to make surveys, proclaimed the possibility of opening a canal across it.

For fifty years after Cramer reported on the possibility of a canal across the isthmus nothing was done. In the meantime Mexico had become an independent republic. In 1824 a resource was found in the Tehuantepec river being made navigable as far as possible, and that a wagon road be constructed from that point to the Pacific coast. This recommendation contains the germ of the present railway. In 1842 Santa Ana, then dictator of Mexico, granted Jose de Garay a concession to open such a line of communication as that recommended eighteen years before.

For almost half a century the Mexican government was alternately making grants for railways, roads and canals across Tehuantepec, and about as regularly annulling them. Nearly every concessionaire advanced the work a little so that the tremendous drain upon the treasury of the republic. In 1879 a Massachusetts company received a grant to build and operate a railroad and telegraph line across the isthmus. Although the company set about the work in a business-like manner, it was found that the problems of engineering and labor were immense. Even nature seemed to oppose obstacles to oppose the work, and in the meantime the Mexican government gave a concession to Captain James B. Ends to build a ship railway across the isthmus. This project was one of the most original ever suggested for transporting vessels. It provided for several parallel lines of rails, upon which a ship resting in a cradle, was to be drawn across the isthmus by teams of locomotives.

In 1882 the Mexican government declared the grant to the Massachusetts company was forfeited, and confiscated the sum deposited as an evidence of good faith. The matter was finally settled by the government awarding the company about \$1,500,000 for the \$3,000,000 worth of work accomplished. Various other attempts

were made to finish the road, and about 1896 the railway was stretched from the Gulf to the Pacific. It was not, however, a modern railroad and entirely unsuited for the inter-oceanic freight carrying which is about to make it famous.

Built by English Firm
An English firm, Pearson & Son which had built the drainage canal for the city of Mexico, took the entire project in hand in 1898. They re-laid the road with heavy rails and modern equipment and completed the railway in 1902. The work done since that year has been confined to providing suitable harbors at each end of the line, and this in some respects has been the most expensive and important part of the enterprise now completed.

The railway is 189 miles long, and in a general way runs north and south across the isthmus. It is at present a single track road, but the numerous turnouts provided will prevent any serious congestion of traffic. The road as originally constructed, crossed 835 bridge openings, chiefly spanned by wooden structures. The number has been reduced to 257, and all the bridges have iron or steel superstructure.

From the gulf terminal there is a gradual ascent until the table land is reached. At the Galtapee river, seventy-nine miles from Coatzacoalcas there is a depression, the river being crossed by a steel bridge, 500 feet in length. Up to this point the grades average about sixty feet to the mile. The real grade, however, begins here and after about forty miles of steep ascent the Chivela Pass, where grades reach as high as 116 feet to the mile, is reached. The highest elevation, 890 feet above sea level, is attained near Atotonilco, 125 miles from the northern terminal. The headquarter of the road is located at Ricon Antonio, and here large new buildings have been erected for the use of the staff and employees.

On the Pacific side the route follows for some distance the course of the Tehuantepec river, and on this side the descent is abrupt and the steepest grades are encountered. Steep as are many of the grades, the heaviest ones have been reduced and the curves straightened in the course of reconstruction.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time.

It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide.

Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

DISCUSS IMPROVEMENT OF QUADRA CEMETERY

Meeting of Those Interested in Question Was Held Last Night

At a public meeting but slenderly attended last evening in the city hall, the committee recently appointed to confer with the cemetery committee of the city council regarding the Quadra street burial ground, reported. In all there were but twelve people present. The discussion has however interesting and resulted in a resolution being adopted instructing the committee as to the meeting's approval of the proposition conveyed to it in a letter from Ald. Weston, a most of its details. The resolution re-affirmed the wish of those present however that if the cemetery is finally conveyed by the provincial government to the city council, it shall retain its present character as a burial ground and shall not be converted into a park.

Those present: Hon. Dr. Helmecken, Dr. Helmecken, Capt. Edgar Fawcett, Capt. Fleet, Capt. K. Curtis, and Mrs. Herbert Kent, Mrs. Higgins, A. Y. Wootton, H. D. Helmecken, president and Mr. Fawcett, acted as secretary.

Mr. Helmecken reported that the committee which had been appointed at a public meeting two weeks ago had met the cemetery committee of the city council and had visited the cemetery. They had agreed as to the necessity of something being done immediately. A tentative proposal had been made that the relatives of those buried there should assume the cost of putting their own and the graves of the unknown dead in order but nothing definite has been proposed. A letter was then read from the chairman of the civic committee, Ald. Weston.

The letter proposed that the entire ground should be levelled, enclosed by a wire fence and privet hedge, and that some of the stones which are in good repair should be removed to a central position and that the ground be then laid out in the shape of a garden. Five or six marble slabs should be placed in position bearing the names of those buried there in the birthplace and the date of their death, thus forming a perpetual monument to them. One slab could be devoted to the names of the navy's dead, another to those of the employees of the Hudson's Bay Company, etc. The graves themselves should be marked so that the relatives of the dead could plant flowers upon them. A cemetery garden laid out in this way would be the best monument to the pioneer dead and would be a beauty spot in the heart of the city. Some retired gardener could be secured who would care for it the entire year for a small fee.

Ald. Weston promised his support if the meeting favored this proposal. A letter to Ald. Weston from the provincial secretary, Hon. Dr. Young was also read. It was as follows: "I am instructed by the executive council to say that at the next session of the house, legislation will be introduced conveying to the city of Victoria, the Quadra street cemetery, to be held by the city in trust for park purposes. In the meantime the city council are

modations have been sadly lacking in the past.

The hall at the entrance will be an impressive chamber of great height. From the ground the hall will rise three stories to a dome at the roof. This will be of stained glass set in lead, through which the sun will throw a soft and varied light in day time. At night it will be artistically lighted with many electric lights. Two elevators will convey guests to the dressing rooms on the floor above.

The feature of the interior hall will be the magnificent marble stairway leading from the promenade to the floor above.

It is estimated that it will take about a year to complete the work. Sixteen thousand square feet will be added to the floor space of Rideau Hall by the change.

Take Care.

IMPROVING RIDEAU HALL.

Viceregal Residence to Undergo Radical Alterations.

Ottawa, June 14.—It is the intention of the government to make alterations and extensions to Rideau hall, which will make it an official residence worthy of the Dominion. The exterior character of the building is to be changed, and a large extension is to be made to the space intended for the accommodation of guests at the official functions which the government gives from time to time. The plans have been prepared, and tenders will soon be invited for the work. A hundred thousand dollars is available with which to make a beginning this year.

When the plans have been carried out there will be in the place of the unsightly brick affair an imposing structure of classical design of gray Standstead granite, the brick casing of the ball room and tennis court, which form two wings of the present building is to be removed and replaced with granite walls.

The greatest change is to be made in the character of the front, now dismally bare and inartistic. A great entrance hall and promenade 110 feet long and 100 feet deep will stand out from between the two wings, and in front of this will be a handsome portico. This will provide a royal entrance hall and promenade within on the ground floor. The floor above will be divided into dressing rooms and toilet rooms for the use of guests at balls and receptions. MR. McBRIDE'S POSITION

The result of Mr. McBride's mission to London cannot be belittled by his opponents with any hope of creating an impression on the public mind that he accomplished nothing. He has accomplished a very great deal. Let us examine the matter a little further than we were able to do yesterday.

Sir Wilfrid Laurier sought to make the decision of the Inter-provincial Conference binding upon all the provinces for all time to come by introducing into the Canadian House of Commons a resolution declaring that it was the desire of the Canadian parliament that the new terms included in the resolution, which were those adopted by the Conference, against Mr. McBride's protest as far as the special provision in regard to this province was concerned, should be made a final and unalterable settlement of the matters contained therein. The resolution was adopted. We were told by the Liberal press that its adoption demonstrated the unspeakable folly of Mr. McBride's action in not accepting Mr. Fielding's offer to ask the Conference to supplement its proposal or failing this to secure a small additional sum directly from Parliament. We were told that it was the height of folly for a province to think that the Imperial government would presume to open a matter, which the Parliament of Canada had ordered closed for all time to come. Upon this point the Liberal press of British Columbia never grew tired of harping, and some of our eastern contemporaries thought that Mr. McBride's impending defeat would be so utterly humiliating that they grew merry in advance over it. Our local contemporary seemed to have had his mind made up as to a beautiful cartoon representing Mr. McBride being kicked over by His Majesty, as he knelt at the foot of the throne, and the Montreal Herald appears to have been contemplating something that would place him in unfavorable contrast with the two Swiss chiefs, who visited London last year. How very different is the outcome of the mission! The case of British Columbia, instead of being closed for all time to come, is open, so that the demand for justice can be preferred until justice is done. The "final and unalterable" settlement has ceased to be final and unalterable. British Columbia will be entitled to receive all that the Inter-provincial Conference and the Dominion government were prepared to give, and yet will remain in a position to press for what is her just due in the matter of further consideration. In other words, Mr. McBride has sacrificed nothing and gained much.

The Colonist has never hesitated to confess its fears that the great influence of Sir Wilfrid Laurier in London might be such that Mr. McBride would find it exceedingly difficult to accomplish anything. We said so when Mr. McBride's departure was announced; we have repeated it since. Sir Wilfrid Laurier went to London at a time when the Imperial government had its hands full because of the clamor for preferential trade. He took a course at the Imperial Conference which helped the British Premier and his colleagues out of a tight place. We are not now discussing whether or not the position taken by him was the correct one. The point is that he took it, and thereby relieved Sir Henry Campbell-Bannerman of what might have proved a very troublesome matter. He is persona gratissima with the present British government, and when he came before the Colonial Office, armed with the resolution of the Canadian Parliament asking that the settlement reached by the Inter-provincial Conference should be final and unalterable, he occupied a very strong position. That Mr. McBride succeeded against such odds demonstrates two things. One of them is the strength of British Columbia's case and the other is his own ability to present it.

It is true that the Colonial Office did not see its way clear to pass judgment upon the claims of the province. In this it is to be commended, because the questions involved are too complex to be decided without very full investigation. In this respect His Majesty's government has shown a higher appreciation of the case than the provincial premiers. They disposed of it in the most casual way. The amount offered to the province was not based upon any principle. It was given as a sort of sop to the British Columbia Cerberus, which stood in the way of the acceptance of the demands of Quebec. But Mr. McBride obtained what is of more value than any money grant. He obtained a declaration from the British government, which the Imperial Parliament undoubtedly will sustain, that the highest legislative body in the Empire will not sanction the principle that any individual province is at the

mercy of the other provinces as far as its relations to the Dominion are concerned. In other words, the rights of each province are individual to that province and cannot be surrendered or diminished by a majority of the provinces. The working out of these relations is a matter, which is left to the provinces and the Dominion, but so far as the highest legislative authority in the Empire is concerned the smallest and most influential of the provinces cannot be stopped by its more powerful partners from asserting what it considers to be its just rights. What effect this will have upon the final disposition of British Columbia's claims it would be useless to try to forecast. It is time enough to think about how to play your hand when the cards have been dealt, but we venture the suggestion that before Mr. Templeman and his colleagues in the House of Commons again ask for re-election, Sir Wilfrid Laurier will have discovered a way in which he will endeavor to take "Better Terms for British Columbia" out of politics.

Mr. McBride has gained greatly in personal prestige by his mission to London. His name will be associated with a new definition of provincial rights. He deserves and will receive the very hearty endorsement of the people of his native province. He has stepped at one stride into the front rank of Canadian public men, and his success will be hailed with satisfaction, not only by the Conservative Party in Canada, but by every one who values the maintenance of provincial rights in their integrity.

PRESERVE THE ARM

The Colonist would be the last to attempt to interfere with the establishment of industries in Victoria, and it feels especially friendly to the lumber mills which are very important enterprises and draw a great deal of business to the city. It follows from the fact that we have saw mills on the inner harbor and the lower part of the Arm that there must be logs there. Against this we have no protest to make, but the Arm is a very valuable asset for other purposes than a means of getting logs to saw mills, and the exercise of the privileges, properly enjoyed by the owners of the industries mentioned, ought not to be allowed to interfere more than can possibly be avoided with the use of the Arm for other purposes. Log rafts and booms ought to be placed so as to leave as wide and direct a channel as possible. As a rule this is the case, but a disposition has been apparent during the last few weeks to encroach a little too much upon the space that ought to be reserved for the passage of boats. We assume that this matter comes within the scope of the Harbor Master's duty, and have no doubt that, now that mention has been made of it, he will take such steps as may be necessary not to remedy an evil, for none has yet arisen, but to prevent the legitimate use of the inner harbor and lower Arm by the mill owners interfering more than is absolutely necessary with the legitimate use of the same waters by pleasure craft. The Colonist is not making a complaint; it is only speaking of the matter before cause for complaint arises.

There is one subject which might very probably be taken in hand immediately. As vessels are compelled to hang out riding lights in the harbor, so rafts ought also to be compelled to do so. There should be a light at each end of a raft or boom of logs on the side next the open channel. Persons who have used the Arm much after dark, will confirm the statement that there is great danger, especially when coming towards the city with the glare of the electric lights in one's eyes, of failing to see a dark object lying close to the water, and serious accidents might happen in case of collisions. Now is the time to speak of this matter, not after an accident has happened.

"THE W. C. T. U. REST TENT"

We regret to dissent from the decision of the Women's Christian Temperance Union not to maintain a "rest tent" this year at the Fall Exhibition. The reason advanced for such action is that the protest of that body against the sale of intoxicating liquor on the grounds has "been utterly ignored by the management and other officials connected with the exhibition." If the situation be examined calmly and dispassionately, we think the worthy ladies who compose that admirable institution will see that they have unwittingly made a blunder in assuming such an attitude. No one will for a moment doubt their sincerity, nor that their aim is to exert every effort in the direction of uplifting humanity and improving the moral welfare of the people. But the best-intentioned people sometimes make a mistake of policy. Now, in the city of Victoria there are quite a number of saloons, and a considerable proportion of the people patronize those places. But also in the city of Victoria there is the Woman's Christian Temperance Union, and it is doing a noble work. It has not refused to labor in this community because there are many saloons here. On the contrary, its officers have very wisely seen that there is a work to be done here, all the more pressing for attention on account of the presence of the insidious drink traffic. This is a most logical position. Now, when the Fall Fair is in progress, it will to all intents and purposes during its continuance, be a complete little community. The composition of its population will be much the same, only on a smaller scale, as the population of Victoria.

It Is Not a Mask

The complexion produced by using Shotbolt's Cucumber Toilet Cream is Skin Deep. It is acknowledged generally as the best application for Sunburn and Freckles, rendering the skin naturally soft and healthy. Gentlemen cannot get a better preparation for use after shaving.

Twenty-five cents a bottle at SH OTBOLT'S, PIONEER DRUGGIST, 59 Johnston Street, Victoria, B. C.

That is to say, there will be many there who do not think it harmful to drink; and there will also be many there, no doubt, who will be seeking out the friendly "rest tent" which is made an annual feature by the Women's Christian Temperance Union. As it would be admittedly impossible for the authorities of the city of Victoria to say "we want within our gates only those who are total abstainers," and it is almost equally impossible for the management of the Fall Exhibition to take a similar attitude in respect to it. We trust it is clear to the ladies of the W. C. T. U. that there is at least room for argument as to whether they have not been a little hasty in their action. The Colonist has every sympathy with them. They are engaged in a noble work, calling for much self-sacrifice and offering little reward in return, except what is given in the consciousness that they are trying to stamp out a great evil. But it ought never to be forgotten that community enterprises, such as the Fall Exhibition, must be conducted along the lines meeting with community approval, if we may coin a phrase. That is to say, in a public venture the complex views of the public must be observed if it is to prove a success. So we must sincerely hope that the ladies will reconsider their decision and determine to maintain the "rest tent" this year as usual. As the W. C. T. U. is able to do its work in its Mission on Yates street, notwithstanding that there are a number of saloons in close proximity, so will the "rest tent" at the Fall Fair serve its purpose regardless of the circumstances that liquor is being sold on the grounds.

THE TSMIPSEAN RESERVE

It will be recalled that at the time of the meeting of the shareholders of the Grand Trunk Railway company, held several weeks ago, a statement was given out to the press to the effect that the Grand Trunk Pacific had obtained 22,000 acres including Kaien Island and a part of the Tsimpsian Reservation, with the approval of the provincial government. The Opposition press made such ado over the matter, even going so far as to say that Mr. McBride, when on his way to London, had seen Mr. Hays in Montreal and agreed to surrender the reversionary right of the province to the 12,000 acres embraced in the reservation. There was some warrant for this, because some reports of Sir Charles Rivers-Wilson's speech contained something to the effect that the Provincial government had given way. The Colonist, on enquiry of Acting-Premier Tatlow learned that there was no foundation for the statement. Mr. Tatlow immediately drew the attention of Mr. J. H. Furner, Agent-General to the matter, and the result is the following correspondence, which shows that Sir Charles was misreported.

Grand Trunk Railway Company of Canada, Dashwood House, No. 9 New Broad St., London E. C., 29th May, 1907:

Dear Sir—I am desired by Sir C. Rivers-Wilson to acknowledge receipt of your letter of the 27th instant, and to forward to you the enclosed copy of the official report of the proceedings at the half-yearly general meeting of the Grand Trunk company, held on the 11th April last, containing the matter mentioned by you.

Yours faithfully,
(Sgd.)—H. W. NORMAN, Secretary.

J. H. Turner, Esq., Agent-General for British Columbia, 111-Bury House, Finsbury Circus, E.

London 30th, May 1907.
Dear Mr. Tatlow—Your telegram May 1st, and letter about the speech of Sir Rivers-Wilson were duly received. Sir Rivers was out of town at the time, I therefore wrote him on this subject and have today received a note from H. W. Norman, his secretary, and a copy of the official report of the meeting of the Grand Trunk Railway company, 11th April which gives Sir Rivers speech correctly. Those I send you herewith, you will notice that he did not according to the report, say, "with the consent of the government." This, I trust will be sufficient to put the matter right before the public.

Yours faithfully,
J. H. TURNER,
Agent General for British Columbia.
Hon. R. G. TATLOW, M.P.P.,
Minister of Finance, Victoria.

A correspondent kindly directs our attention to the fact that Hong Kong was spoken of in the news columns of this paper as a city. The error is a common one. Hong Kong is an island. The city is Victoria.

Testimony of the most unimpeachable character that the province is developing with great rapidity is furnished in the circumstance that the government printing office has outgrown its present facilities, necessitating the purchase of a new press of the most modern type.

There is not much danger that the Colonist will ever claim credit for originating the "All-Red" line as the Times suggests; neither does there seem to be any danger that our temporary will find itself broad-minded enough to be able to join with the Colonist in advocating that Victoria shall endeavor to derive some

direct advantage from this highly important project.

A Washington despatch speaks of the complaints of the Japanese government, concerning the statement according to the Japanese residents of California, as trivial incidents. For smaller matter, than these the warships of the powers have bombarded Oriental cities. We have taught the Japanese and Chinese to believe that the persons and property of aliens must be respected in the Orient. If Japan demands reciprocity in such matters, who shall blame her?

There seems to be no longer any doubt that Mr. Joseph Chamberlain has, owing to the enfeebled condition of his health, bidden farewell to public life. Such an ending to a brilliant career is not at all in accordance with what would be the wish of his host of admirers all over the world. Chamberlain's "last call" should have found him in the forefront of the battle he so dearly loved to wage and in which he was easily ever the most conspicuous figure. "What shadows we are and what shadows we pursue"

On Thursday Vancouver pioneers celebrated the 21st anniversary of the great fire. Since that disaster the Terminal City has made marvelous progress. The Colonist heartily congratulates the citizens of Vancouver on the enterprise they have displayed. Victoria has nothing but the warmest feelings for her thriving sister across the Gulf. The time has passed when there were any legitimate grounds for jealousy. Both cities are growing and there is room for both to develop, perhaps not along exactly the same lines, but in directions which will be satisfactory to the inhabitants of both places.

Berlin has declared war against moving pictures, physicians having pronounced that they are injurious to the eyes. The quivering movements of the films are described as most harmful, particularly to children. If the Berlin physicians are right in their contention it is eminently proper that an effort should be made to protect the public. If the moving pictures exhibitions are to be suppressed, the regret thereat will not be confined alone to the manufacturers. Old and young alike derive much pleasure from a display of such wonderful ingenuity. Possibly one result of the agitation will be an improvement in the system of showing the pictures, removing the objectionable features.

Dr. S. F. Talmie, one of the most energetic members of the executive of the British Columbia Agricultural Association, who has just returned from an extensive tour of the Mainland, brings back the gratifying report that the farmers are taking great interest in the preparations for our Fall Fair. He also thinks that large numbers of visitors may be expected from the Prairie provinces. This suggests an idea. Why not exert a special effort to get a large attendance from the Northwest for our attraction this fall? Could not an arrangement be made for an excursion from that section about that time? Harvesting will be over on the prairie, and a suggestion to come out and see, under such favorable auspices, what we have to offer, would no doubt be very warmly welcomed.

The Anglican Synod now in session at Toronto has passed a resolution urging the clergy to use their influence to purify the political and social atmosphere. There will be universal approval at such action. Canada stands badly in need of a moral awakening. The disclosures during the recent session of the federal house were calculated to disturb the equanimity of those who have the welfare of the country sincerely at heart. The appalling situation in the United States, in respect to the reckless disregard of the decencies of life and all that tends to national honor and integrity, should serve as a warning to us. Let us not by our apathy permit a lowering of the moral tone of the people to such an extent that it will be too late to remedy the evil. "Facilis decensus Avern!"

The Colonist most heartily endorses the action of the city council in taking steps to arrange for the placing of all overhead wires in the centre of the city underground. No city claiming to be conducted along modern lines can afford to postpone doing this. Aside from their unsightliness, the overhead wires are a constant menace to the lives and property of the community, possibly to an extent which very few of us realize. But there is a very special reason why Victoria should insist upon their being placed underground. We are posing as a tourist resort and an ideal residential point, and we must seize every opportunity to improve the appearance of the city by removing what is unsightly. A forest of poles and a network of wires are the reverse of pleasing to the eye.

Stem Employer—Come here, boy, how many grandmothers have you got?
Surprised Office Boy—Two, sir, just like other folks.
S. E.—All right. Now, remember, I hate you on Wednesdays and Fridays, but for the season.—Baltimore American.

WEILER BROS.

FURNISHED ROOMS

IN our Broughton Street windows we are showing some very choice home furnishings. We have tastefully arranged three rooms: Dining Room, Drawing Room and Bedroom. In these we have placed some furniture pieces which we consider make a pleasing combination—you may differ, so see them.

Displaying furniture in this manner shows one what it will look like when in use, and to properly appreciate the merits of almost any piece of furniture it should be seen as when in use. In the showrooms there is a confusion of designs and kinds.

Take the Brass Bed as it is shown usually and compare it with the handsome bed in our window.

By all means see these handsome furnishings.

Dining Room

Dining Chair, oak, early English finish, upholstered in leather \$12.00
Cellerette, oak, early English finish \$24.00
China Cabinet, leaded glass doors \$40.00
Dining Table, round top, extends to 8 feet .. \$45.00
Buffet, oak, early English finish, very handsome .. \$40.00
Sideboard, early English finish, very attractive. \$85.00

Drawing Room

Parlor Table, solid mahogany \$25.00
Small Parlor Chair, solid mahogany \$45.00
Sofa, solid mahogany, carved \$85.00
Music Cabinet and Writing Desk Combined, solid mahogany \$32.00
China Cabinet, solid mahogany \$85.00
Sheraton Screen, three-fold \$35.00

Bed Room

Chiffonier, solid mahogany, inlaid, a real handsome piece \$80.00
Dresser, solid mahogany, inlaid \$90.00
Lady's Dresser, solid mahogany \$55.00
B r a s s Bed, handsome square post style. \$100.00
Reed Chair, a dainty bedroom chair \$12.50
Somnoe, solid mahogany \$30.00

If You Want a Low Priced Wedding Present

If you are limited in the amount of money you can put into a wedding gift—you can express your unlimited good will more satisfactorily through the medium of some fancy bit of china, than through anything we know of.

Even the smallest piece can be artistic, and also useful — and you'll be surprised to see how many such things we have secured this season.

Never before have the little priced things been so wholly gratifying—but, come in and see for yourself.

MUSIC CABINETS

We have several pretty designs in Music Cabinets—shown on the Third Floor.

These are priced fairly and there is no reason why the piano top or a convenient chair should serve the purpose.

And these are the good sort—just as nicely finished as your piano.

Prices range at, each \$8.00, \$12.00, \$12.50, \$20.00, \$25.00, \$30.00, \$32.00 and \$35.00

Supplies for the Summer Hotel and Boarding House

One of our "long suites" is the outfitting of summer hotels and boarding houses with dining room, bed room or bar furnishings.

Our stock of Dinner Ware and Toilet Ware, plain and decorated, Table and Bar Glassware, and Hotel Specialties can meet every requirement of price and quality.

If you want a moderate priced outfit we can supply your wants—if you want the best that money can buy, we can suit you to the last item.

Sensible Souvenirs of Your Stay in Town

This stock of ours is so pregnant with suggestions in the souvenir line, that it is quite impossible to itemize. It is a huge exhibition of souvenirs—that's what.

Not showy, unsubstantial things, gimcracks or gewgaws, but—artistic bits of decorated china, useful and decorative, such as you will delight in keeping.

Lots of little priced things, which can be safely carried.

Come in. You're truly welcome.

The Right Glasses for Summer Drinks

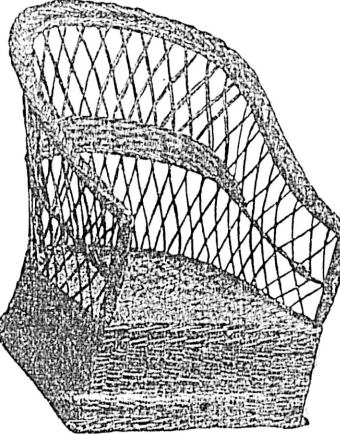

Of course, you are all interested just now in the matter of cooling off, and the summer drink is a prominent feature.

In summer, particularly, a drink tastes better from a thin glass than a thick one, and is no more liable to break.

We carry a large line of thin blown glassware, plain, etched and engraved—suitable for all beverages.

You can buy them of us as cheap as is consistent with quality or as expensive as they are made.

English Easy Buff Willow Chairs

These beautiful Chairs are the most comfortable Chairs made and are very strong and serviceable. The seats of these are only 10-in. and 11 in. from the floor. It will be to your advantage to call and look over these fine goods. They can be nicely upholstered or cushioned with cretonne, denim, or other goods. Samples of all goods for upholstering cushions mailed free on request. If you are out of town, give us some idea of what you wish, and leave the remainder with us; you are sure of getting entire satisfaction.

These are the Most Comfortable Chairs Made

Prices of these Fine Chairs, without cushions range from \$14.00 to \$6.00
With cushions, according to material used, from more than \$25.00 to \$9.00
Choose yours now while the assortment is complete.

LOCAL STUDENTS DID WELL IN THE EXAMS

Good Showing Made By Victoria College in McGill Course

The students of Victoria college made a very creditable showing at the examinations upon first year university work conducted at the high school recently. First-class standing in various subjects, meaning a percentage of over seventy-five, was attained in several instances. According to a return recently received by Principal Paul, of the local high school, from McGill, Holmes ranked second in English, with first-class honors, in the entire Dominion. In French he also made first-class honors, ranking sixth.

Dinsdale took first-class standing in physics, trigonometry and Latin, with second-class standing in algebra and geometry. Spragge made second-class honors in English, geometry and physics, while Miss Cecilia Green attained the same standing in English.

The name of a former pupil who is now taking a law course at McGill appears in the same list. It is that of Peter Hing, the young Chinaman who was educated at the local high school, and for whose tuition the Chinese government is paying. He is bracketed first, with first-class honors, in fourth year political science.

Half-Holiday Proclaimed.

A half-holiday has been proclaimed by Mayor Morley for Thursday afternoon next, the occasion being the opening of the race meet. It is felt that as this is an epoch-making event for the horsemen of Victoria, it is but right that it should be specially emphasized. Large crowds are expected to arrive from Seattle and Vancouver for the occasion, and during the three days of the meet there will be many strangers in the city.

The time used is Pacific Standard for the 120th meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water. The height is measured from the level of the lower low water at spring tides. This level corresponds with the datum to which the soundings on the Admiralty chart of Victoria harbor are referred as closely as can now be ascertained.

Strawberries and Ice Cream.

A strawberry and ice cream social will be held at the First Congregational church on June 25th in connection with the ladies of the church and Young Peoples' Society of Willing Workers.

Housekeeper Resigns.

At a meeting of the directors of the hospital last evening the resignation of the housekeeper was submitted and accepted. The position will become vacant July 1 and the board are advertising for someone to take the position.

WHERE THE DELAY IS.

Sending of Letters to London Holds Back Placing of Wires Underground.

"The principal difficulty in connection with the proposed plan for placing all telegraph wires in conduits underground arises from the delay in dealing with the local tramway company," said Mayor Morley in discussing the matter yesterday.

"All communications have to be forwarded to the head office in London, but from the latest correspondence between the company and the city there is no reason to suppose that there will be any serious delay or difficulty in coming to an arrangement."

"George H. Halse, secretary-treasurer and general manager of the British Columbia Telephone Company, who was in the city a few days ago, stated that his company was ready to enter into arrangements here on the same lines as they have done in Vancouver, and it will not be long before there will be a satisfactory arrangement, I am certain."

MUSIC AND DRAMA

The New Grand.

The ten cent children's matinee at the New Grand every Saturday afternoon has come to be a feature of each week's amusement, and the pretty little theatre is always crowded on these occasions with little ones, whose parents take the opportunity thus afforded of giving them an hour and a half's pleasure and entertainment at much less than the prices which obtain during the other days of the week. Those who attend today will witness a fine programme, which includes Adele Palmer & Co. in "The Ice Man"; Flo Irwin in song and story, Bert White and Florilla Sanford in a musical act and impersonations, Edna Delle, singing and dancing, southerly song, P. Keane, singing the illustrated song, "No One Can Take Your Place," and a splendid set of moving pictures which will prove intensely interesting to children, and which illustrate a remarkable adventure in the life of Daniel Boone, the great Indian hunter and frontiersman.

The week will close with the usual performance tonight.

CHINAMAN WINS CASE

IN THE POLICE COURT

Lim Bang Skillfully Conducts His Own Defence Against Cruelty Charge

With three witnesses against him, and the force of the Society of the Prevention of Cruelty to Animals behind the prosecution which was ably conducted by A. J. Dallain, Lim Bang a Chinaman, with no one but himself to testify in his behalf, secured a dismissal in the police court yesterday morning on a charge that he did wantonly, cruelly and unnecessarily starve certain pigs by neglecting to feed them for four days.

Lim Bang conducted his own defence and won his case by an intelligent and skillful cross-examination of the day watchman, the wharfinger and the freight clerk of the C. P. R. who were all called to testify as to his guilt. His interrogations caused the witnesses to waver on the question of time of certain occurrences in connection with the complaint, and he was careful to commit each one to a positive statement. In his address to the court the Chinaman displayed a good knowledge of English though his enunciation was not always clear. He briefly summed up all the evidence, dealing with nothing but the material points, and in a subtle manner that would have done credit to a trained lawyer, effectively punctured the case for the prosecution.

When the hearing, which was commenced Thursday morning, was resumed yesterday, H. Bishop, freight clerk for the C. P. R. was called to the stand. He testified that the pigs were landed at the wharf late Saturday night, and that on Monday morning the day watchman informed him that they had not been attended to by anyone. He then telephoned the defendant that the pigs had arrived. He admitted that on the evening of the same day he telephoned again to the accused and advised him that the pigs had been fed one sack of potatoes at the cost of which would be charged to him. The defendant had agreed to pay the cost.

William Thompson, the day watchman, who on Thursday testified that he had on his own responsibility fed the pigs because of a humane feeling for them, was recalled to give evidence on the condition of the swine. He said he had heard the animals making an awful noise, that all pigs made a noise when they were hungry, and that he would make a noise himself if he were hungry. From the time they were fed till the time they were taken away no one fed them but himself.

"Lim Bang says he fed them corn on Tuesday night," Mr. Dallain suggested.

"A Chinaman will say anything," retorted Mr. Thompson. Cross-examined by the defendant as to how he could swear that the pigs were not fed during the night when he was on duty only in the daytime the witness said he was there all the time, day and night, and was sure that no one but himself gave them any food. He testified that while they were on the wharf. Questioned further, witness said he did not know to whom the potatoes, he had fed to the pigs, belonged; he just took them out of the shed.

"You knew somebody would have to pay for them, didn't you?" asked the defendant.

"I knew Mr. Bishop would look after that; Mr. Bishop is a smart man; he is as smart as you think you are; he is as smart as any Chinaman," replied the witness.

"Didn't you know that I would have to pay the highest retail price for them?"

"I hope you do; I gosh they ought to sock you heavy." In his address to the court Lim Bang said that he sympathized with the objects of the Society for the Prevention of Cruelty to Animals. Such a society existed in his own country, and did good work there. The prosecution in this case, however, had acted hastily and without justification, which surprised him. There was no evidence to show that he had received any written notice of the arrival of the pigs before Tuesday morning. His book-keeper had received a telephone message on Monday and had understood that the pigs were being fed by the company and that the cost would be charged to him. He produced the bill charged to show that the weight of the whole consignment was only 750 pounds and making his calculations from points in the evidence submitted by the prosecution contended that the animals were just three days on the wharf. He would leave it to anyone who knew anything about swine if two sacks of potatoes was not sufficient food for 750 pounds of live pork for that length of time. He was engaged in the wholesale business and he argued that it was not a reasonable assumption that if he intended to starve the pigs, he would agree to starve them. He learned of their condition, to pay to the C. P. R. the highest retail price of food for them.

In conclusion Lim Bang directed the attention of the court to the conflicting testimony of the witnesses for the prosecution. One had sworn that the pigs arrived on Saturday afternoon, while another had said they arrived Saturday night. Again one witness was positive that the animals had been taken away on Tuesday while another was just as certain that they were removed on Wednesday. He submitted that the testimony against him was unreliable.

The magistrate agreed that there was much force in Lim Bang's argument, and he failed to see how he could attach any weight particularly to the evidence of Mr. Thompson, the day watchman, who under cross-examination, had sworn that he was on the wharf all the time, day and night. He would have to believe that Mr. Thompson never slept which was hardly reasonable. The case made out by the prosecution was not very strong on warrant, him finding the accused guilty as charged.

Carnival at Gorge.

The public is asked to bear in mind the carnival at the Gorge park this afternoon and evening under the auspices of the Anti-Tuberculosis Society. All sorts of refreshments will be on hand, amusements provided for children, a play and fancy work booth, where all sorts of useful articles will be on sale, and in the evening a band concert will be given by the full Fifth regiment band. It is hoped by those in charge that a number will compete in the parade of illuminated floats. Prizes for the best float and second prizes have been donated. The ladies in charge of the affair have been working hard to ensure a success, and they hope the public will show its appreciation by turning out in large numbers.

Your child's feet are growing.

The 26 bones of which each one is made up are not completely formed yet. They are principally cartilage—soft and pliable as compared with your own.

Now see what you do when you put the average child's shoe on that little growing foot. It cramps it up, distorts it. The soft bones grow and harden in this ill-shaped condition, and the child is crippled for life with corns and bunions.

There is only one shoe made in Canada which won't do this. That is the Instructor Shoe.

The Instructor Shoe is the result of the careful study of the human foot. We have designed it so the foot is perfectly free to grow—fitting snugly over the instep and giving each toe lots of room so it can lie out flat and comfortable.

Another good thing about the Instructor Shoe is that we make it of the very best leather—cut from the centre of the hide where the grain is tough and wear-resisting.

If your shoe store cannot supply you don't stop at that. Write us and we'll see that you get the Instructor Shoe—real foot-comfort for your children.

Every pair has the name stamped on the sole—our guarantee.

The Foot is cramped in old style shoes.

Heart Strength

Heart Strength, or Heart Weakness, means Nerve Strength, or Nerve Weakness. Nothing more. Positively, not one weak heart in a hundred is, in itself, actually diseased. It is almost always a hidden little nerve trouble, really a fault of the nervous system—the cardiac, or heart nerve—simply needs, and must have, more power, more stability, more controlling, more governing strength. Without that the heart must continue to fail, and the stomach and kidneys also have these same controlling nerves.

This clearly explains why, as a medicine, Dr. Shoop's Restorative has in the past done so much for weak and ailing hearts. Dr. Shoop first sought the cause of all this painful, palpitating, suffocating heart distress. Dr. Shoop's Restorative—this popular prescription—is alone directed to these weak and wasting nerve centers. It builds; it strengthens; it offers real, genuine heart help. If you would have strong hearts, strong digestion, strengthen these nerves—re-establish them as needed.

Dr. Shoop's Restorative

APPROVED THE SENDING OF AN EXHIBIT EAST

Fruit Growers Endorse Idea of Display in Prairie Cities

There was a large attendance at the regular meeting of the executive of the Fruit Growers' Association held yesterday afternoon at the rooms of the Victoria Development and Tourist association. President Brydon occupied the chair.

A communication from the committee having charge of the arrangements for the exhibit of fruit, flowers, and bulbs grown on the southern end of the Island, to be shown at the Winnipeg and other expositions was read. It outlined the preparations under way, stating that the intention was to make a display not only at the central fair to be held in the capital of Manitoba but to have it entered at Brandon and Regina exhibitions.

This proposal roused considerable discussion. Suggestions were thrown out as to the best means of bringing out the project to a successful issue, and of making the exhibit so attractive as to prove the best possible advertisement of the district among the people of the prairie provinces.

It was agreed, finally, that everything in the power of the association would be done to assist those in charge of the preparations. In accordance with this policy a resolution was moved and carried endorsing the proposal.

Other business relating to the fruit crop and the condition of the market was debated. As this, however, was of a private character no information was given for publication.

WEDDING ANNOUNCEMENT

McDonald—Macrae.

At Vancouver on Wednesday evening, McDonald, of Victoria, and Miss Alice Christine Macrae of Vancouver, were united in marriage. Rev. Dr. Fraser officiating. The bride looked handsome in a white moire gown and carried a shower bouquet of white roses and maidenhair ferns. She was attended by her sister, Miss Innes Macrae, who wore a pretty frock of pink silk and carried a bouquet of pink carnations. J. R. G. Macrae was the best man. The happy couple left for Seattle and the Sound cities, where they will spend their honeymoon. Mr. McDonald is a business man of Victoria and the couple will make this city their future home.

Stylish Corsets—of excellent quality materials, designed to give the greatest comfort for summer wear. Prices 50c to \$1.50, at Robinson's Cash Store, 88 Yates street.

PREPARATIONS MADE FOR CONFERENCE HERE

Western Chapters of Brotherhood of St. Andrew to Meet

The final details for the conference of western chapters of the Brotherhood of St. Andrew to be held in Victoria on June 23 and 24 next, were settled at a full meeting of the local assembly on Wednesday last, and everything is now in shape for a successful meeting. There will probably be about twenty-five delegates from Vancouver, and over twenty from Seattle, besides those from E. & N. points, making, with local members and clergy, a large assemblage. The full programme is published below, and begins on Saturday evening with a meeting of welcome to the delegates in St. John's school room. On Sunday, June 23, special Brotherhood services will be held in all the Anglican churches in the city both morning and evening, and in the afternoon a mass meeting for men only will be held in the A. O. U. W. hall, when Right Rev. Bishop Keator of Olympia, Wash., will give an address on "Man's Responsibility for the Social and Moral Welfare of Cities," followed by E. Baynes Reed as lay speaker. Bishop Keator will also preach at St. John's church on the Sunday evening. Rev. Mr. Bernays of Portland occupying Christ church pulpit in the morning. On Monday the work of the conference will extend over the whole day, and addresses will be given on various subjects by both local and visiting members. The full programme is as follows:

Saturday, June 22, 8:30 p. m., St. John's schoolroom—Meeting of welcome to delegates, chairman, Mr. C. H. Lugin; address of welcome, Lord Bishop of Columbia; reply—

Sunday, June 23, 8 p. m.—Corporate community, Christ Church cathedral. 11 a. m.—Service, Christ Church cathedral; preacher, Rev. Mr. Bernays of Portland; subject, "Work of St. Andrew's Brotherhood."

3 p. m.—Mass meeting, A. O. U. W. hall, Yates street; chairman, his worship Mayor Morley; subject, "Man's Responsibility for the Social and Moral Welfare of Cities"; clerical speaker, Right Rev. Bishop Keator of Olympia, U. S. A.; lay speaker, Mr. Baynes Reed.

7 p. m.—Service, St. John's church; preacher, Right Rev. Bishop Keator of Olympia; subject, "Am I my Brother's Keeper?"

Monday, June 24, 8 a. m.—Corporate communion, St. Barnabas' church.

9 a. m.—Breakfast, St. Barnabas' schoolroom. 10:30 a. m. to 12:30 p. m.—Christ Church cathedral schoolroom; chairman, Rev. Canon Beauland; subject, "The Church's Duty." (a) "To Win the man," J. A. Cunningham; (b) "To Hold Him," C. H. Hewett of Vancouver.

12:30 to 1:30—Lunch, Christ Church schoolroom.

2 to 4 p. m.—Christ Church schoolroom; chairman, Rev. C. E. Cooper; (a) "Junior Chapter Work," Rev. G. Halford Wilson of Vancouver; and E. G. Boulton of Vancouver; (b) "Brotherhood and Work in Connection With the Tide of Immigration," Rev. A. J. Stanley of Victoria, and G. Ward of Seattle; (c) "Brotherhood Work Amongst Seamen," H. Fernyhough of Tacoma, and J. S. Bailey of Victoria.

7:30 p. m. to 9:30 p. m.—St. John's schoolroom; chairman, Rev. A. J. Stanley; subject, "The Brotherhood Rules." (a) "Prayer," Rev. A. H. Saveridge of Vancouver; (b) "Service," H. O. Litchfield of Victoria; (c) "Application of the Brotherhood Rules From a Chief Pastor's Point of View," Lord Bishop of Columbia.

Inadvertently Omitted.

The names of Mrs. D. E. Campbell and Mrs. Edgar Smith were inadvertently omitted from the list of sustaining members of the Y. W. C. A. published in Thursday's issue. The ladies of the association would be pleased to receive the names of any who would become members and extend a cordial invitation to all to call at the rooms, 20 Fort street, and have a talk with the general secretary. Further contributions will be thankfully received.

Spent Honeymoon Here.

Mr. and Mrs. F. J. Fletcher left Thursday morning on the Princess May for the north, where they will reside in future. Mr. Fletcher is the son of the late Charles Fletcher, of Maple Bay, Cowichan, and came south recently for his marriage with Miss Nellie Palmer, of Lund, B. C., spending his honeymoon with his mother, Mrs. T. D. Ford, at Brighton, B. C. While in this city the young couple visited the sister of the groom, Mrs. John Smith, of Dallas road.

MANY APPLICATIONS FOR TIMBER LICENSES

Number Necessitated Enlarging Gazette—Many After Farm Lands

This week's provincial Gazette is two or three pages larger than that issued last Thursday. The additional space was found necessary principally for the purpose of permitting the insertion of a large number of new applications for timber licenses. A similar increase is noticeable in the applications for the pre-emption of public agricultural lands. Judging from the nature of the notices an influx of settlers to the fertile valleys of the Interior is assured.

Appointments are announced as follows: To be Justices of the peace for the province of British Columbia: William Henry Gage of Castlegar, Frederick J. Sammons, of Procter, Kootenay.

Robert Gillespie, of Goldstream, Robert Musher Stewart, of Stewart, Portland Canal.

William Nairn Shaw, of Gabriola Island.

John Jex Woods, of the city of North Vancouver.

Philip Spence, of the city of Vancouver, to be a notary public in and for the province of British Columbia.

MILITIA ARE NOW REGULAR AT DRILL

Strict Enforcement of Regulations Has Had Good Effect

"I had an off night last night," remarked Lieut.-Col. Hall, commanding the Fifth Regiment when asked whether any absences from drill had been brought before him in judgment at Macaulay Point on Wednesday. This, he believes, is a direct indication of the strict enforcement of the regulations which has prevailed since the opening of camp.

The colonel's tent is situated in the centre of the canvas village. Immediately after the corps is dismissed, after the night's training he takes his place there to deal with matters affecting the interior economy of the organization, and those who have been guilty of a breach of the rules must make their appearance in order that the defence may be heard at the same time as the prosecution.

At the headquarters of the commanding officer the case for the prosecution is presented briefly and the offender is asked whether he has anything to say for himself. If no satisfactory explanation is forthcoming, but if it is a first offence the man is generally let off with a severe reprimand, being told of what his duties to the regiment consist and how important it is for every individual to assist in promoting the welfare of the corps by willing and faithful service. If he has been "court-martialed" before, however, he does not get off so easily. There is no regular form of punishment, but the officers are sufficiently resourceful to find some means of forcibly impressing on the mind the imperative necessity of strict attention to duty on the part of all belonging to the militia.

However, Lieut.-Col. Hall is pleased because of the comparatively small amount of this kind of work, which has been forced on him this summer. He thinks that it augurs an improvement in the corps and predicts that if the present conditions continue the records of the year will prove that the regiment has advanced considerably in its efficiency.

Last night the usual order of procedure was followed in camp. Members of No. 1 company were engaged in the 15 pounders, those of No. 2 were in the fort, while No. 3 company practiced infantry manoeuvres.

Major Currie and the officers of No. 1 company are busy trying to find a suitable range for land practice. Heretofore the mark for this shooting has been situated on the water some distance from Macaulay Point. This, however, it is considered, does not fill the requirements. The extent of land necessary would be 7,000 yards, the range being 3,500, while a similar distance has to be allowed for the ricochet in open country. If an open space could be procured permitting a range of about 2,500 yards, and the placing of the mark at the foot of a hill or mountain it would be satisfactory. As a record has been established by No. 1 company it is the desire that all wishing to see the standard maintained should assist in the endeavor to obtain such a land range.

Tomorrow morning the regiment will parade to St. Paul's church, Esquimalt. In the afternoon a band concert will be rendered at the camp an open invitation being extended to the general public to visit their friends of the militia and to inspect their summer headquarters.

Appended are the regimental orders for yesterday:

Orderly officer for June 14th, Lieut. A. J. Brace, in place of Lieut. R. P. Clark; next for duty, Lieut. H. H. Wolston; next for duty, Lieut. L. H. Garner.

The regiment will parade on Sunday, June 16th, at 9:45 a. m. for the purpose of attending Divine service at St. Paul's church, Esquimalt. Dress—church parade order (with sashes in place of tunics).

Lights out will be sounded on Saturday at 11:30 p. m.

Bugle calls for Sunday will be sounded at the following hours: Reveille, 6:30 a. m.; breakfast, 7 a. m.; office, 7:30 a. m.; dress for camp inspection, 9 a. m.; dinner, 12:30 p. m.; tea, 6 p. m.; tattoo, 10:45 p. m.; lights out, 11 p. m.

The usual C. O.'s prize of \$5 will be given for the cleanest and smartest tent dressed with military accoutrements only, due regard being also paid to the appearance of the tent detachment.

OBITUARY NOTICES

The funeral of L. G. Burns, whose death occurred last Wednesday, will take place from the residence, 37 Heywood avenue, this afternoon at 2:30. The late Mr. Burns had resided in British Columbia for twenty years, coming here from the United States when but a young man, and becoming a naturalized British subject. He was born May 4, 1869. On taking up his residence in this province he engaged in the plumbing and tin-smith business, which proved unprofitable. He afterwards went to the Kootenay country, where he secured mining properties which he turned into cash. Returning to Victoria he again engaged in business, which proved unprofitable in a financial way, broke down his health and caused his death while in the prime of life. He was a kind and generous husband and father, and was sadly missed by his wife and two daughters who survive him. A statement in a previous notice to the effect that a telegram had been sent to his brother in San Francisco was an error. The telegram was sent to his wife's brother that the telegram was sent.

The death occurred on Thursday at St. Joseph's hospital of Frances Gertie, the youngest daughter of Charles and Mary Gaudin, the age of 4 years and 4 months. The funeral will take place this afternoon from the family residence, Victoria West, at 1:30 o'clock with service at the Roman Catholic cathedral at 2 o'clock.

The funeral of the late Mrs. Katharine Snapp took place yesterday morning from the family residence at 10:30 o'clock. His Grace, Archbishop officiating. Many friends of the deceased were present and the floral offerings were many and beautiful. The following were the pall-bearers: Mr. McLennan, Thomas Gelger Sr., A. Gananave, F. Sere.

Band Concert.

In connection with the camp of the Fifth regiment at Macaulay point a grand concert will be given by the regimental band tomorrow afternoon, commencing at 2:30 o'clock. Macaulay point is reached by taking the Esquimalt car at the corner of Government and Yates streets.

Case Again Adjourned.

Hop, the Chinaman suspected of being the person who robbed the Montana restaurant on Monday night, answered to the name of Buck Line in court yesterday morning. Richard Lowe appeared as counsel for the defence and asked for an adjournment of the case until Monday next, when he will elect whether his client be tried by the magistrate or by a jury.

SETTLERS POURING INTO THE INTERIOR

Agricultural Resources Are Being Developed By Farmers From Prairies

"Business is exceedingly bright all throughout the interior," remarked Smith Curtis, formerly attorney-general, who was in the city yesterday. This was particularly the case in that country extending along the banks of the Columbia from the boundary to Rossland. There the farmers were irrigating large areas of land most successfully, bringing man hundreds of acres, hitherto of comparatively little use, under cultivation.

Mr. Curtis says that the settlers are coming from the middle west in large numbers. They are taking up land throughout the agricultural districts.

Asked whether there was anything new to record in connection with British Columbia politics Mr. Curtis became somewhat reticent. He intimated that he was not troubling very much about public affairs at the present time.

"Don't you think that Premier McBride has scored a triumph in his representations before the Imperial authorities on the question of better terms?" asked the reporter. Mr. Curtis said in reply that though he did not care to discuss the phase of the situation opened by the query, he was of the opinion that British Columbia was entitled to a larger subsidy than at present received.

Mr. Curtis was pleased to note the prosperity apparent in Victoria. He remarked that a wonderful improvement could be seen, and he expressed the hope that the advances which had been made in the past year would be continued.

GEYSER IS FOUND ON SALT SPRING ISLAND

Prospectors By Boring For Minerals Start Unusual Flow of Water

A geyser has broken out on the summit of Mount Rodwell, Salt Spring island. The residents of that vicinity did not know of its existence until a short time ago, when a volume of water of considerable size commenced flowing down the mountain side through the adjacent agricultural districts.

The phenomenon aroused the curiosity of several of the farmers and they proceeded to investigate. Following up the stream they were led to the top of the mountain, and there found water spouting from the rocks to a height of between ten and twelve feet.

In the endeavor to ascertain the cause of this unusual occurrence, it was ascertained that some time ago a number of prospectors had bored into the rock at that point in the search for certain deposits of mineral was disclosed. The geyser, therefore, is not purely the result of natural influences, but might be more correctly termed an artesian well of exceptional proportions.

APPOINT COMMITTEE
FOR MERCHANTS' PICNIC

Everything Points to Bigger Success Than Ever This Year

At a meeting held last evening in the city hall, committees to deal with the arrangements for the merchants' picnic, which will take place some time during July, were appointed. The committees will meet and report progress at the Tourist Association rooms on Monday evening, June 24, at 8:30 o'clock.

As yet the place where the picnic will be held has not been decided, but will come up at the next meeting. A number of places were proposed and a delegation will probably visit Duncan's next Sunday to consider the suitability of that place.

The committees are as follows:
Grounds—Messrs. Crawford, Kirkham and Huxtable.
Sports—Messrs. Wilson, Watson and Weskit.
Printing and advertising—Messrs. Brockhurst and Renfrew.
Transportation—Messrs. Weskit, Noble and Wallace.
Prizes—Messrs. Duncan, Sweeney, Sprague and Mouldie.
Music—Messrs. Heald, Kirkham and Clark.
Refreshments—Messrs. Brockhurst, Gowan and Bennie.
Water—Messrs. Watson, Clark, J. F. C. Johnson.
Finance—Messrs. Gowan, Fell and Peden.

The president, vice-president and secretary are ex-officio members of all committees.
By all indications the forthcoming picnic will be as large, if not larger, and more successful than that of last year. It is hoped that the merchants will contribute as liberally as they did last year.

Three Women Burned.
Cincinnati, O., June 14.—Three women were burned to death and two men seriously injured in a fire that destroyed four houses in the White-water settlement, near Harrison, Ohio, today.

The Queen's Bazaar.
London, June 14.—The opening took place yesterday of the Queen's "Fete Bazaar," organized by the Lord Mayor at the Mansion House in aid of the crippled children of London. Queen Alexandra took especial interest in the American stall. It was presided over by Mrs. Ronalds and attended by a notable number of prominent Americans as stall holders, including Mrs. Whitelaw Reid and Miss Reid. At the American stall Her Majesty's attention was attracted by a pine-apple cheese. She inquired, "What can that be?" and when enlightened purchased the article and insisted upon carrying it off herself. She entrusted the numerous other novelties purchased at the bazaar to her attendants.

WEAK HEART
SYSTEM WAS RUN DOWN

When the heart is healthy and performing its functions naturally, it should beat regularly seventy-two times a minute without causing its owner the slightest inconvenience or distress.

When it begins to beat irregularly or intermittently, palpitate and throb, skip beats, beat fast for a time, then so slow as to seem almost to stop, it causes great anxiety and alarm.

The least excitement or exertion seems to affect it.

Many people are kept in a state of morbid fear of death, become weak, worn and miserable, and are unable to attend to either social or business duties, through unnatural action of their heart.

To all such sufferers
MILBURN'S HEART AND NERVE PILLS

can give prompt and permanent relief. Mrs. F. Fletcher, Sault Ste. Marie, Ont., says: "I have been troubled for four or five years with weakness and run down system. My feet were always cold and I felt almost dead. My heart was weak and I was so nervous I could hardly walk across the street. I started taking Milburn's Heart and Nerve Pills, and after using three boxes I felt much better. I continued their use until I had taken twelve boxes and I am now well."

Price 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

SYNOD OF KOOTENAY

IN ANNUAL SESSION

Election of Officers—Important Questions Brought Up For Consideration

Vernon, B. C., June 13.—The eighth session of the annual synod of the diocese of Kootenay convened this morning here in the old church building, the new church having been opened last night by Bishop Dart and the rector, Rev. Mr. Lambert with choral evensong. The synod is well attended, and there are a larger number of delegates than is usually the case. Reports read by the various ecclesiastical officers show that the diocese is gradually increasing in strength. Some 14 years ago there were only three clergymen in the diocese, and when the diocese was separated from that of New Westminster, which was in 1898, there were then only 12 clergy. Now there are over 25 parishes, and vigorous life is everywhere to be seen throughout. The immediate work to be done is the raising of an endowment which shall meet the salary of a separate bishop.

Those present today are: Right Rev. John Dart, bishop of New Westminster and Kootenay; Venerable H. Beer, Archdeacon; Revs. J. A. Cleland, Rossland, Cook Kaslo, E. P. Flewelling, Cranbrook, F. H. Graham, Nelson, H. King, Armstrong, J. H. Lambert, Vernon, T. Green, Kelowna, A. N. Millemay, Penticton, E. A. St. G. Smyth, Trail, H. Steele, Grand Forks, F. V. Venables, Enderby, C. E. Yates, Golden, W. T. Johnson, Arrowhead, R. S. Wilkinson, Fernie, H. S. Akhurst, representing Grand Prairie and other points within the diocese, although belonging as rector of Kamloops, to the diocese of New Westminster. The lay delegates present were: Dr. Johnston, F. Irving, A. W. Dyer, Nelson, C. W. Busk, Ymir, Price Ellison, M. P. P. Capt. Carew, A. E. Venables, Vernon, T. W. Stirling, F. A. Taylor, P. Dumolin, Kelowna, R. R. Gibbs, R. Forester.

Dame Fashion's Dictum

A handsome apricot brown pongee coat lined in the upper part by pale pink silk is elaborately braided with soutache sewed on edgewise. The circular skirt is unlined and is cut away in front. The hat is a plain leghorn with insertions of Irish lace and trimmed with a wreath of pink roses and lilacs tied with a black velvet ribbon.

Enderby, R. Hobson, Salmon Arm, M. P. Williams, Trail, G. L. Parker, Sumnerland, G. Stewart, R. E. Woods, Grand Prairie, E. A. Baynes, missionary to New Denver.

His lordship in addressing the synod laid particular stress upon the duties of the clergy to their parishioners and inculcated a better observance of the holy days of the church, declaring that Christmas and Good Friday were the only days that were observed at all commensurately with their importance.

He also insisted on a proper teaching of the youth of the church with a thorough knowledge of the historical continuity of the church and its doctrines since the early ages. His lordship was of the opinion that the new criticisms would meet the same fate that had the old, and would die out and never again be heard of. The bishop adverted to the proposal to have a permanent secretary for the carrying out of the work of the Sunday schools in each diocese, and asked the synod to presently deal with this question. He also gave the welcome information that a single donor in England had contributed £2,000 towards the endowment of the new diocese of Kootenay.

Rev. F. H. Graham, and F. Irving, both of Nelson, were appointed clerical and lay secretaries, respectively, of the diocese.

Archdeacon Beer went into some statistics showing the remarkable growth of the church within the diocese. The first annual report of the Women's Auxiliary in the diocese was read and approved.

The Closing Session
Vernon, B. C., June 13.—The eighth session of the synod of the diocese of Kootenay of the Anglican church concluded its sitting this afternoon and the members of the synod departed for the lord bishop. The election of officers resulted in the following appointments: Registrar, E. A. Crease, Nelson; treasurer, G. Johnston, Nelson; auditor, J. A. Lay, Nelson. On the executive committee the bishop appointed Rev. H. St. G. Smyth and C. W. Busk as his representatives, and the others appointed were Revs. H. Steele,

Grand Forks; C. A. Procter, Revelstoke, and J. H. Lambert, Vernon, the lay members appointed, being P. Venables, Vernon; R. Hobson, Salmon Arm, and C. A. Cook, Cranbrook. Archdeacon Beer was elected diocesan secretary.

Votes of thanks were passed to the registrar, E. A. Crease, the retiring treasurer, and Rev. J. A. Cleland, of Rossland, the synodal preacher. Among a number of matters of detail there were also dealt with two important matters, the one referring to insurance and the other to labor. That concerning insurance was brought up by Rev. R. S. Wilkinson, of Fernie, who pointed out that in the western districts there was little provision made for superannuated clergy, and this lack in a poorly paid profession deterred many men from entering the church. He proposed a general insurance fund over the whole of the Canadian church, the fund to be raised by a levy of 2 per cent upon the incomes of each incumbent and each church throughout the Dominion. The proposition was agreeably received, but it was felt that the advice of some actuary should be taken as to the amount of money really needed, and in consequence a committee was appointed, to which Mr. Wilkinson was joined, which will report, with actuarial advice, at the next session of the Kootenay synod, when a memorial will be drawn up for presentation to the general synod, which will meet in 1908.

The other matter was even more important and deals with the influence of the church among the workmen. Rev. H. Steele, of Grand Forks, maintained that there existed a feeling among many workmen that the church was governed by their employers, and that they themselves had little or no voice. Moreover, as the incumbent was maintained by voluntary contributions from the richer members, it was difficult for the incumbent to express his views on the catholicity of the church in her dealings with mankind as to class distinction. Mr. Steele therefore declared that the best system was to have the finances of the church so administered that the incumbent's income should not go directly from one pocket to another, but should pass through a third hand, and be there distributed. This could be done by adopting the Australian system, where all money is paid into a central fund and then apportioned according to the needs of the parishes. The second method would be to recognize the working classes by asking

TURN DOWN PROPOSAL
OF PROPERTY OWNERS

Streets, Bridges and Sewers Committee Deal With Spring Ridge

A meeting of the streets, bridges and sewers committee was held last evening at the city hall.

The resolution of the Spring Ridge Property Holders' Association, which had been referred to them at the last meeting of the council, came up for consideration. The association had been asked to submit plans acceptable to them to the city for the settlement of the gravel pits difficulty. They recommended that the city purchase the entire area whence the trouble arises, and that the council should prepare a bylaw to that effect and submit it to the property owners. The committee will recommend that the council do not entertain the proposal. The cost of the enterprise stands in the way. It was estimated that a sum of \$150,000, or even more, would be required to carry out the scheme. The money would be tied up in the property indefinitely. The supply of gravel gained could not be used by the city in many years.

It was decided to grade and macadamize and build concrete sidewalks on Linden avenue through to the Fairfield road. A petition asking that this be done had been received at the last session of the council from a large number of ratepayers in the district.

A number of other matters of routine business were transacted. Amongst other improvements the committee will recommend that the council proceed with the laying of a concrete sidewalk on a portion of John street.

Spare the Broom.
Prithce Council, spare the broom, Touch not a beautiful spray, This fair city is my home, And I feign would with you stay.

If an eyesore to a few I'm surely in no one's way Let them not influence you, My enemies, at Oak Bay.

My earth born life's never sever, To hew me down forever Will not citizens protest?

I that you landscape with gold, And flourish everywhere; My butterfly flower unfold With a wealth of beauty rare.

Offices dip't in sparkling dew, Or half hidden 'neath the snow Verdurous I bloom anew, And luxuriantly grow.

My admirers plead to thee, To avert my cruel doom, The weeds spare the trees, Kind Council spare the Broom, —L. A. ANDERSON, Victoria.

May Play "Mikado" Music.
Chatham, June 14.—The order prohibiting playing music from "The Mikado" by naval and marine bands, which was issued at the time of the visit of Prince Fushimi to England has been withdrawn.

There are more strikes in the building trade than any other, and next comes collieries and the textile trades. The first storm-warning signal was issued in 1861. In August of that year the publication of weather forecasts was first begun.

France started its tobacco monopoly in 1816, and makes a yearly profit of over £12,000,000. The main factory is at Lille, where 6,000 tons are treated annually.

Tumors Conquered
Without Operations

Unqualified Success of Lydia E. Pinkham's Vegetable Compound in Cases of Mrs. Fox and Miss Adams.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy, tumor.

So-called "wandering pains" may come from its early stages, or the presence of danger may be made manifest by excessive monthly periods accompanied by unusual pain extending from the abdomen through the groin and thighs.

If you have mysterious pains, if there are indications of inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation; secure Lydia E. Pinkham's Vegetable Compound at once and begin its use and write Mrs. Pinkham of Lynn, Mass., for advice.

Read these strong letters from grateful women who have been cured:

Dear Mrs. Pinkham:— (First Letter.)
"In looking over your book I see that your medicine cures tumors. I have been to a doctor and he tells me I have a tumor. I will be more than grateful if you can help me, as I do so dread an operation."

Dear Mrs. Pinkham:— (Second Letter.)
"I take the liberty to congratulate you on the success I have had with your wonderful medicine."

Eighteen months ago my periods stopped. Shortly after I felt so badly I submitted to a thorough examination by a physician, and was told that I had a tumor and would have to undergo an operation.

"I soon after read one of your advertisements and decided to give Lydia E. Pinkham's Vegetable Compound a trial. After taking five bottles as directed, the tumor is entirely gone. I have again been examined and found cured."

Lydia E. Pinkham's Vegetable Compound; a Woman's Remedy for Woman's Ills.

WILL BE NO SCARCITY
OF JAPANESE FLAGS

They Can Easily Be Made If There is Any Demand

There is a scant supply of Japanese flags at present in Victoria for decoration incident to the coming of H. I. H. Prince Fushimi Sadanaru, of the royal house of Nippon, who is coming by special train and is expected to arrive in Victoria a week from next Sunday by the steamer Princess Victoria, which the C. P. R. has placed at the disposal of the prince for the trip between Vancouver and Victoria.

Ship chandlers and others who have a supply of bunting for sale have few, if any, of the red-balled flags for sale, and local Japanese dealers have only sufficient necessary for the decoration of their own establishments. But there will be no Japanese flag famine, if there is any demand, the flag vendors say, they will speedily have Japanese flags manufactured in as large numbers as needed.

The making of a Japanese flag is simpler than that of the majority of other flags. All that is to be done is to place a circle of crimson on a white square. During the recent war crafty Chinese, who had been flying Russian flags from their outer walls when the Russians were in occupation of their cities, lost no time in sewing red balls upon white cloths, and Japanese flags were always hanging at

their houses when the Japanese troops arrived.

There is a story of the Chino-Japanese war which deals with the ease with which the Japanese flag is made. This story, which is now a favorite of Japanese literateurs, deals with the exploits of a standard bearer at Wei-hai-Wei. In the assault on the Chinese forts a flag was shot away, and so the story runs, a Japanese soldier cut his arm with his bayonet and smeared a red ball with his blood on a white cloth, which replaced the lost flag.

IMMIGRATION FIGURES.
Canada's Percentage From Favored Sources is Large.

Ottawa, June 14.—The following countries are considered desirable for immigration viewpoint, viz.: Great Britain and Ireland, Austria-Hungary, Belgium, Servia, Montenegro, Denmark, France, including Corsica, German Empire, Norway, Sweden, Switzerland, Australia, Tasmania and New Zealand. The United States out of a total immigration of 1,109,735 for the fiscal year 1905-06 received 38 per cent. of this entire number, while from Italy alone the number was 25 per cent. and from Russia, including Finland, 20 per cent. From the last three countries the percentage of 45 is greater than from the first-named group combined. During the same period Canada received out of a total immigration of 189,064 from favored countries 56 per cent. of the whole number from Italy 4 per cent. and from Russia and Finland 3 per cent. From the United States Canada received 40 per cent. of the entire immigration for the year, while the United States got to return from Canada and Newfoundland combined less than one-half of one per cent. of her entire immigration.

SPORTS OF THE DAY

UNIVERSITY SCHOOL TEAM IS EASY WINNER

Queen's School Vancouver De-cisively Beaten in Annual Cricket Match

The University School, Victoria, and Queen's School, Vancouver, An-nual Cricket Match

The Eton and Harrow match of British Columbia, was played yester-day on the Victoria Cricket Club's grounds, and resulted in a win for the wearers of the black and white. Irving beat Langley in the toss, and sent in Stroth Gillespie and Green to face the bowling of Robert and his partner hit so that 16 were totalled before a wicket-fell. Irving came in and hit out without regard to safety and, as a result after a few brilliant strokes fell a victim to Dickson and took out his hat. A word of praise is due to Rich for hitting out without regard. The total reached 70 of which Gillespie tallied 29 by good cricket.

Langley kept wicket well only allowing 3 runs. BAKER had the repeated analysis, Roberts deserves praise for his steadiness.

On the Queen's going to bat Gillespie (S.) and Bowser proved to be too good for them. The former dismissed five batsmen for 9, and assisted by Green and good fielding finished the innings for 30.

The home side feeding very com-fortable, sent in their old pair, and Gillespie fell after one or two of his slogs in over anxiety to obtain un-necessary runs. He will get plenty of runs if he waits. Irving followed in to play the biggest innings of the day. Hitting freely all around the wicket. Irving rapidly accumulated 65 and then fell to a good length from Rob-erts. Pauline played good cricket for his 16 and assisted by a very clever stroke by Rich, the side totalled 115. Langley again saved his eyes but missed repeated chances by not standing back. When the best keepers in the world do it well the rest can follow.

Mrs. Irving provided an orchestra and four o'clock tea, both of which were greatly enjoyed by the partici-pants.

Form shown by the home boys is a revelation after their somewhat feeble attempt last year. Perhaps seeing their seniors' only lately re-habilitated—got their form, they re-solved not to be behind with their team.

To sum up as usual in a boy's match, both Gillespies (E. P. is good for a little up) deserve praise for their bowling. Roberts, of Queen's was not supported as he should have been, but kept his length like a veteran. Both wicket keepers, Irving for choice) were good. The score fol-lows:

OLD COUNTRY CRICKET.

Results of Recent County Matches Played in England.

The latest English mail contains the following results of the more important cricket matches, played in the old country towards the end of May. Nottingham gained their fourth victory of the season by defeating Leicestershire by nine wickets. Surrey drew with Warwickshire, rain preventing play on two days; the South Africans won the second match of their tour in

THE CASTLE FASHION BY BEATING

THE CASTLE FASHION BY BEATING

the castle possible fashion by beating Essex by 100 runs. Essex, however, beat Hampshire by ten wickets. Lancashire defeated Kent (last year's champions) after an exciting finish by six runs. Oxford and University gained a victory over Worcestershire by 86 runs. The match between Yorkshire and Derbyshire was abandoned without a ball being bowled, owing to rain.

Bankers and Lawyers Team.

The team composed of Bankers and Lawyers, which will play the Victoria Cricket club at the Jubilee grounds this afternoon will be chosen from the following: A. Martin, H. E. Pooley, D. Gillespie, T. R. Fitcher, E. Carr-Hilton, G. A. A. Elliott, J. D. Bell, R. J. Perry, A. Gillespie, S. G. Langley, A. L. Phillips, R. L. Smith, P. G. Fawkes. The game will start at 2 o'clock and an interesting match is looked forward to.

SIX CREWS ENTERED IN MONTHLY REGATTA

Good Sport Assured for James Bay Athletic Association's Second Club Competition

The second monthly regatta of the James Bay Athletic Association will be held this afternoon over the harbor course. Six crews are entered and some exciting races are looked forward to as they are all evenly matched. The first heat will be put on at 2.30 o'clock and the others will follow at fifteen minute intervals. There will be five heats altogether so that the regatta will be over about 4 o'clock. The men are all in good condition having trained faithfully since the May regatta. This is the order of the races:

Second heat—Browne, stroke; Gleason, Curtin, Nason, bow, vs. Hisecks, stroke; Russell, Strachan, Brown, bow.

Third heat—Belyea, stroke; McCarter, Boyd, Elworthy, bow, vs. Sargison, stroke; Sargison, Sargison, Nason, bow.

Fourth heat—Winners of first and second heats.

Fifth heat, final—Winners of third and fourth heats.

GOLF CHAMPIONSHIP.

Detroit Wins Lower Lakes League Honors in Annual Tourney.

Detroit, Mich., June 14.—The Detroit country club of six men yesterday won the golf championship of the league of the lower lakes association, defeating Rochester by 14 up and Toronto in the afternoon by 2 up. Buffalo forfeited to Toronto, two of the Buffalo team failing to arrive in time for the match. In the individual qualifying rounds there were 42 entries. George S. Lyons of Toronto, made the best gross score for 36 holes, 81 in the morning and 91 in the afternoon. Wylie Carhart, of Detroit, marked 83 in the afternoon. C. Curtis, of Rochester, and E. T. McMillan, of Detroit, with 177 each, stood next to Mr. Lyons. Hayward, of Toronto, with 175, stood fourth, and Wylie Carhart was fifth with 180. Brown, of Toronto, the sixteenth man in the list of those who qualified, made 188.

LOCAL BALL CLUB BOOKS GAME AT PORT TOWNSEND

The Victoria local baseball club will hold a practice tomorrow morning at 10 o'clock sharp at Oak Bay. The team is already booked to play in Port Angeles on the 30th, and in Port Angeles on the 4th of July, so they need lots of hard practice as Port Townsend and Port Angeles both have very strong teams to buck against. All players are requested to turn out.

FAST DRIVING BY BARNEY.

Seattle, June 14.—On a soft track at the Meadows this afternoon Barney Oldfield drove an exhibition two miles to demonstrate to the press representatives that the track could be negotiated under the minute. He made the second mile in fifty-seven and one-fifth seconds, slipping fourteen seconds off the northwest record, and the two miles in one minute and fifty-six seconds, another record.

VANCOUVER WILL HOLD TWO DAYS RACE MEET

Programme Arranged by Jockey Club for Dominion Day at Hastings Track

Vancouver, June 14.—Arrangements for the midsummer meeting of the Vancouver Jockey Club were made at a meeting of the newly elected committee, held last night. It was decided to hold a two-day meeting on Saturday, June 29th and Dominion Day, and the purses hung up for the various events total \$2,550, which is expected to draw a better class of horses than have ever before performed on the Hastings track.

In deference to the growing interest in harness racing here, \$900 of the purse money will be hung up for the harness horses and this move on the part of the committee is certain to prove very popular with the majority of the followers of the racing game here.

On Saturday the feature event will be the Hastings Handicap of \$250; in all \$1150 will be given in purses on that day.

On Dominion Day the big event of the meet, the popular Dominion Day Handicap will be run, and the purse, \$500, will no doubt attract some class runners. Then the free-for-all, trot or pace with a \$300 purse and the Vancouver stake of \$200 will go to make up one of the best programmes ever arranged for the Hastings track.

Schwengers is Third in Official Ranking

Local Tennis Experts Are Prominent in International Association List of Leaders

Announcement of the official rankings of the first ten players in singles and of the five best teams in doubles, who participated in last year's tennis tournaments, which were held under the auspices of the Pacific Northwest International Tennis Association, have been received by the Victoria Tennis Club from Arthur Remington, chairman of the ranking committee of the association.

The work of ranking the players in the association was done by the official ranking committee, which consists of W. A. Goss, Arthur Remington, R. H. Pooley and W. A. McBurney.

The players are picked from the representative of two clubs from Portland and two from Victoria, and one each from Vancouver, Bellingham, Everett, Seattle, Tacoma and Olympia.

S. T. Paine, of Tacoma, champion of the northwest, heads the list in the singles, while Joe Tyler, who is second in the singles, together with F. L. Russell, is in first rank in team play.

Following are the best ten players in order of their rank:

S. T. Paine, of Tacoma; J. C. Tyler, of Seattle; B. Schwengers, of Victoria; W. A. Goss, of Portland; F. L. Russell, of Seattle; R. H. Pooley, of Victoria; Jack Rihet, of Victoria; Ralph Wickelsham, of Portland; W. A. McBurney, of Spokane; and A. T. Goward, of Victoria.

The first five teams, according to rank, are: Russell and Tyler, of Seattle, first; Paine and Armstrong, of Tacoma, second; McBurney and Schwengers, of Victoria, third; Pooley and Rihet, of Victoria, fourth; Wickelsham and Goss, of Portland, fifth.

Williams, of Vancouver; Bellingham, of Portland; Ballinger, of Seattle; Hunter, of Victoria, and Shannon, of Seattle, are rated by the committee as possibly belonging in the mention of the first team, but were excluded for the reason that the committee had not had sufficient opportunity to observe their work.

Tacoma players are hard at work on the Tacoma Tennis Club's courts. Paine, the champion, is said to be working in better form this year than ever before and feels confident that he can defend his title against any player in the northwest. He will go to Portland in the near future to play some preliminary matches with crack west-foot players. Schwengers, of this city, is showing great form in his practice stunts at the Victoria club's courts, and the members of the club believe that at the international tourney, which will be held in Vancouver this season, commencing August 10, he will be able to snatch the honors from Paine.

LACROSSE TOURS EXPENSIVE.

Capitals Trip to Old Country Cost Something Like \$7,000.

It has not been given out for publication, but it is quietly understood that in spite of the thousands who cheered the Capitals on their way to England, the Grand Sport Premier Team had to make a neat contribution towards the expenses of the trip. In fact, it is said his share of the fun cost him about \$2,500. The trip as a whole totalled up to somewhere about \$7,000. And the biggest item of the bill drew \$2,500, or about \$1,300. The Englishmen took 25 per cent. of the gate as their share.

And taking this as a basis, how much will that Australian trip cost? Caps were away six or seven weeks, while the all-Canucks expect to be gone five months. Of course, a great part of the Canucks' time will be spent on the water, where not much money can be spent, though it is rumored that if you corner the steward he can be forced to take a tip. They will, however, probably be in Australia a month where the facilities for circulating the caps are said to be simply splendid. Then, you know, they may stop off in England long enough to spend another shilling.

To offset all this Mr. Miller starts out with \$5,000 raised by public subscription in Australia and a guarantee of \$1,000 while each player has been required to deposit \$270. That makes \$4,050 more, so that the total cash on hand amounts to \$12,050. Of course, after the \$4,000 guarantee is made up out of the gates a dollar or two more may float into the treasury, and on the whole it looks as if King and his party might get home without having to walk too far.—Toronto Telegram.

BASEBALL SCORES

Northwestern League.

P.	W.	L.	Pct.	
Aberdeen	44	32	.12	.727
Tacoma	48	28	.20	.583

MRS. COMBE WINNER OF LADIES' CHAMPIONSHIP

Mrs. Burton Beaten in Final For Flumerfelt Cup After Exciting Game at Oak Bay

The ladies open golf championship of British Columbia was decided yesterday afternoon at the links of the Victoria Golf Club at Oak Bay when Mrs. Combe defeated Mrs. Burton in the final. It was the closest and most interesting game of the competition, the victor not being decided till the last hole when Mrs. Combe won out by a single hole.

There were eight ladies in the competition on which depended the ownership of the Flumerfelt cup for the year. Mrs. Combe met in succession Miss E. Chilton whom she beat by two up and Miss Mara whom she defeated also by the same margin. Mrs. Burton won from Mr. Laing and then from Mrs. Reade.

Quite a gallery of interested spectators witnessed the final game.

At New York—Chicago game postponed, rain.

EVANS ALSO DROPS OUT

General Manager of Vancouver Baseball Club Resigns the Job.

Changes in the Vancouver baseball team are more extensive than press despatches indicated. J. W. Evans, who was in charge as general manager, has resigned unconditionally. This news came as a great surprise. It was supposed that he would continue to handle the business end of the club, turning the playing end over to Con Strothers.

Mr. Evans will continue to make his home in Vancouver, and be a prominent figure in sporting matters. He has arranged for an outdoor carnival to be held at Recreation park Vancouver, on June 20, 21 and 22.

The retirement of Mr. Evans will be regretted by all those connected with the league. He has been untiring in his efforts to break the hoodoo which has clung persistently to Vancouver, and although he did not have a winning team at the time he resigned, there was considerable good material on hand. A little strengthening of the pitching department and one or two other good men would have worked wonders.

The new manager will be given a free rein in the handling of the team, and Vancouver has a right to expect better things.

LONGEST BASEBALL GAME

Boston Grammar School Team Play Twenty-eight Innings

The long game record is now held by Bennett and Pierce schools of the Boston Grammar School League. They played twenty-eight innings, the score being 4 to 2 in favor of the former. The best previous record was 25 innings, made by Fargo and Grand Forks. Last year the Athletics beat Boston by a score of 4 to 1 in 24 innings, the longest game in professional annals. Harvard and Manchester went 21 without scoring. In 187 John Miller, one of the most enthusiastic of the local fans saw that game. Seattle and Tacoma played 22 innings, the former winning by a score of something like 8 to 7. That game was played about 1890. Except for a technical distinction, Madison and Fond du Lac would hold the record. May 30, 1907, they played 29 innings without either side getting a decision. The fact that they changed pitchers at the end of the first 11 innings on the understanding that they would play a double header spoiled the record.

JEFFRIES OUT FOR KEEPS

Talk of Fighting Again is Only Advertising for Refereeing

Chicago, June 14.—"Don't let anyone tell you Jim Jeffries will ever fight again," says Arthur Crane, former amateur middleweight champion who has recently returned from Los Angeles. "He will never again draw on a boxing glove. Jim told me so, and I believe him."

"All the talk of Jeffries returning to the ring is that circulated to get him a few of these \$1,000 refereeing jobs. It keeps his name before the public and boosts things nicely. I don't think Jeffries could ever again get in shape for a battle. He is huge, and soft, lazy and comfortable, and he doesn't even think of fighting. He's not broke, either—still has money put away and has a farm worth keeping."

"If he takes up the boxing game in Los Angeles—runs a club there—he will make a fortune, for the people have full confidence in him, and have lost faith in Tom McCarey. Tom's all right, I guess, only I was bit puzzled by a certain fighter who the day after he reached Los Angeles came to see me. The boy said he had seen McCarey, and that Tom said to him, 'Well, do you want to wish to win or lose?' What did he mean by that, I wonder?"

Music Lovers Unite.

Musically educated and refined people unite in praising the New Scale Williams Piano for beauty of construction and artistic excellence. Its tonal and singing qualities are unequalled.

ONLY ONE DAY'S RACING

Programme For Ladner Horse Meet Shows Only Five Events

The Ladner horse race meet which will follow the local races in the British Columbia circuit will only be of one day's duration and will be held on Wednesday, June 26. The programme is as follows:

1. B. C. futurity stakes No. 1 purse (estimated) \$262.50.
2. 2.25 class. Trotting or pacing. Purse, \$150.00.
3. 2.40 class. Trotting or pacing. Purse, \$150.00.
4. Green race. Trotting or pacing. Purse, \$75.00.
5. Pony race, 1 1/2-mile. Best 2 in 3. For ponies 14 1/2 hands and under. Catch weights. Purse, \$50.00.

Races 2 and 3, mile heats; best 3 in 5.

Race 4, 1/2-mile heats; best 2 in 3.

Races 2, 3, 4, and 5, money divided, 60, 25 and 15 per cent.

The Natural Cure For Rheumatism

"Fruit-a-lives" remove from the blood the poison which causes Rheumatism.

Rheumatism means of bowels, kidneys and skin. This is the only possible way in which Rheumatism can be cured to stay cured. And "Fruit-a-lives" is the only remedy in the world that completely eradicates the disease from the system.

"Fruit-a-lives" are fruit juices in which the natural medicinal action of fruit is many times increased by the process of combining them.

Then tonics and antiseptics are added and the whole made into tablets. 50c. a box—4 for \$2.50. At all dealers or from Fruit-a-lives Limited, Ottawa.

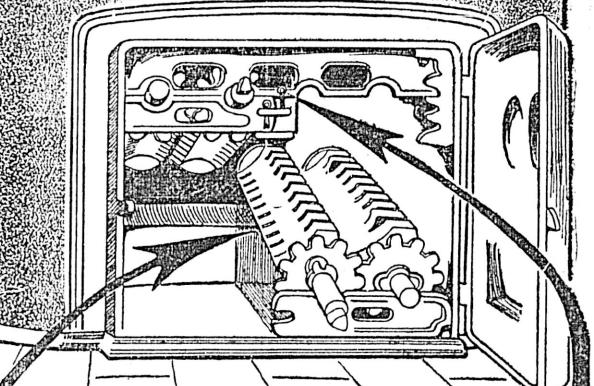

"Fruit-a-lives" will cure almost any case of Rheumatism, Sciatica, Neuralgia.

Fruit-a-lives (OR FRUIT LIVER TABLETS.)

Corticelli Wash Silks

are used by artistic people everywhere. Made from the best raw silk, dyed fast colour with Asiatic dyes in nearly 400 shades.

SUNSHINE FURNACE

EASY MATTER TO REMOVE GRATES

If necessity requires, it is an easy matter to remove the grates from the Sunshine.

Just loosen the cotter pin (see the top arrow pointing at it) and the grates on the right can be lifted out. Repeat the operation on the left, and you can do the same with the remaining grates.

Could any operation be easier or simpler?

These four grates are made of heavy cast-iron with the strongest kind of bull dog teeth. Heavy and strong enough to grind up the biggest clinker into particles small enough to sift through the narrow openings between the teeth.

What's left in the ash-pan is not worth sifting.

If your local dealer does not handle the "Sunshine," write direct to us for FREE BOOKLET.

Extensive Market for Goods British Columbia Can Supply in Mexico

GYMERIC ARRIVES WITHOUT COAL

Has Not Sufficient Fuel to Get Further Than Royal Roads-Spokeane Sails for Alaska.

The steamer Georgia of the Canadian-Mexican line will leave for Salina Cruz via ports on July 1st, and if the enquiries are any index she will have a full cargo. The steamer will proceed to Comox for coal, and will go to Vancouver to load cargo offering there before returning to Victoria.

Thomas Adair, who made the round trip on the Georgia in the interest of Canadian manufacturers, expects to have several large shipments ready for the Georgia when she sails at the beginning of next month. He said yesterday the market offered Canadian merchants in Mexico was practically unlimited, the only difficulty being the available supply. Coal is much in demand, but local conditions at present do not allow of large export trade, and there is a market for all the lumber that can be shipped. An order for three million feet was brought up by the Georgia.

In discussing the prospects with a reporter for the Colonist, Mr. Adair said that it was from San Francisco, from where a steamship service was maintained, that the Canadian exporter would meet with the greatest competition, but the field was so great that even in face of this, an immense business could be worked up. Mexico was being cut up by a network of railways, which would bring the whole country within easy access, so that all the important districts could be reached. Of course, the Elider Dempster line on the east coast, carried a lot of freight from Eastern Canada, but the territory available to the west was equally as large, if not larger. The whole of Mexico was as easily reached by means of the Canadian-Mexican steamers as by any other route, and with the Tehuantepec railroad in operation running for 198 miles across the isthmus of Tehuantepec, and the Mexican Central running from Manzanillo to Tampico across Central Mexico via City of Mexico, the possibilities were difficult to estimate.

It was expected that freight from Europe would be carried to Victoria and then via the steamers Georgia and Lonsdale, by way of the Tehuantepec connection, which had excellent facilities for the handling of freight, there being a capacity for about 300 tons an hour. It was also anticipated that steamers from the Orient would tranship freight at Salina Cruz for Great Britain and Europe.

Mexico would import from Canada, pulps, cement, canned goods, drugs, tallow, flour, apples, potatoes, butter, wrapping paper, raisins, oils of all kinds, coal oil, gasoline, whiskey, cloth, guns and ammunition, hardware of all descriptions and other wares. For coal and lumber there was a market for all that could be supplied. Mexico could export to Canada coffee, tortoise shell, coconuts, limes, tropical fruits of all kinds, cow hides, deer hides, alligator hides and many other wares. Near Acapulco there was a large mining district, but few of the mines were being worked, although there were many promising prospects. It is probable a large amount of iron would be sent north to the Vancouver Island smelters.

The principal ports of the Mexican Pacific coast were Guaymas, Mazatlan, San Blas, Manzanillo, Acapulco and Salina Cruz. The Canadian-Mexican steamers call at all, excepting San Blas. At Salina Cruz, the terminus of the line and the Pacific coast port of the Tehuantepec railway, a big fortress, equipped with modern defence works and heavy guns, was being established by the Mexican government on a headland at the north side of the entrance. At this place a very large sum had been expended in port works, an inner harbor being dredged from where the town was originally located. Dredging was in progress when the Georgia was there recently. A large breakwater had been built, and large piers had been constructed, where there were electrical cranes, conveyors and other appliances for rapid handling of freight. The railway yards were close to the piers and steamers were unloaded direct to the trains, but 30 or 35 hours being taken to carry a cargo of 5,000 tons from steamer to steamer, from one ocean to the other.

At Manzanillo, which itself was a small place with not more than 2,000 inhabitants, heavy expenditure was also being made in harbor works, and an immense breakwater was being built out into deep water to make the port safe. Piers and other works were being constructed here to fit the port, which was the outlet for Colima, capital of the province of Colima, as the terminus of the Mexican Central railway, soon to be completed to Tampico on the Gulf of Mexico. There were some good copper properties near this place, and heavy shipments of coffee were made from there. San Blas, a place of 3,000 people, exported fruit, bananas, limes, etc., for the most part. Acapulco, with 6,000 people, was the outlet of a mining country, where lumber and coal was much in demand, while coconuts, limes, hides, etc., were shipped from there.

Mexico was the largest of all the Pacific coast ports, with a big city with over 21,000 people, and had large factories, wholesale houses and public buildings such as are found in any city. The largest factories noticed were shoe, match, wagon and soap manufacturing. There was a great market there for Canadian goods. Altogether Mr. Adair is optimistic regarding the possibilities of developing trade between Mexico and British Columbia.

Carmen Island, at which the Georgia called to load salt for Simon Leiser

of this city, has large salt deposits, and it is expected regular shipments will be made from there to Victoria. The steamer Lonsdale, which was to follow the Georgia north, is expected to bring a consignment. At present the greater part of the salt used by the British Columbia canneries comes from the United Kingdom.

GYMERIC'S PREDICAMENT

Reached Royal Roads With Empty Bunkers—Unable to Proceed

The steamer Gymeric, of Andrew Weir & Co., which reached the Royal Roads yesterday from Manzanillo, Mexico, to which port she carried a cargo of coillies for the Mexican Central Railway Company from China, arrived with empty bunkers and was unable to proceed until coal can be brought to her. Less than half a ton of coal lay on the iron floors of the bunkers, and had bad weather occurred or the steamer otherwise delayed she would have to burn what woodwork she had to enable her to reach port, and failing that would have been a hopeless derelict off the coast.

The Gymeric went to anchor in Royal Roads and coal will be brought from the island mines by scow to enable her to proceed to Tacoma, where she is to load. The Gymeric was one of the steamers of the Waterhouse line to North China ports carrying a cargo of flour and grain from the sound for Taku, Bar, Ichang, Newchwang and Shanghai, and returning took Chinese to Mexico. She is to be used in the new service being established from Puget Sound via Victoria and San Francisco to Australia, commencing on August 10, next.

ALASKAN EXCURSIONISTS

Steamer Spokane in Port Yesterday With First Contingent of Tourists

With 125 excursionists on board, booked for the round trip, the Pacific Coast Steamship Company's steamer Spokane reached port yesterday afternoon and sailed last night on her first trip of this season to Alaskan ports. Calls will be made at Ketchikan, Wrangell, Juneau, Sitka, Skagway, and the Alaskan glaciers. At Skagway arrangements will be made to allow the travelers to visit White Horse.

Capt. James Carroll, who has been in command of the Alaskan excursion steamers for over two decades was again on the bridge of the Spokane when she arrived here, and Mr. Jones, purser. He was master of the steamers Idaho, Eureka, Mexico, Queen and other vessels, and has always been popular with those who traveled with him. But he has never allowed his good fellowship to interfere with his management of his steamer. In this connection a story is told of when he was running the steamer Queen to Alaska. The steamer was scheduled for a short trip to an Indian village, but the passengers were anxious to have the captain remain until next day. A petition was drawn up, largely signed, and a charming lady whose seat in the dining room was next that of the captain was called upon to present it. She approached the captain with a genial smile and handed him the document. He read it and returned it, saying: "My dear madam, I regret very much to disappoint you and your friends, but this steamer is not run by petitions. We shall sail on schedule time."

THE STRANDED OHIO.

Plan to Float Steamer Ashore at Cape Nome—Is Much Exposed.

Unless a gale springs up within the next few days, officers of Frank Waterhouse & Company believe the steamship Ohio will be saved. A telegram was received by them last night from Capt. Brown, which stated that preparations were being made to sink a mat over the port bow, where the ship is located. This is calculated to check the rush of the water sufficiently to enable the pumps to empty the hull. The ship will then float. A temporary plate will be put over the hole sufficiently strong to withstand the voyage from Nome to Seattle. Capt. Brown wired the company that he thought there would be no difficulty in patching up the ship to make the run to this port.

The only fear that is expressed by the company is that a gale will spring up before the repairs are made on the vessel. At the present time the ship lies in the open roadstead. There is no protection near Nome. In heavy weather the ships are compelled to run to sea and leave to until better weather comes. In the case of the Ohio this would be impossible. No anchors will withstand one of the severe gales that sweep on the low sandy shore. The only hope for a ship in the Nome roadstead during a blow is to run to sea. Although there are no rocks along the Nome beach, the great breakers would smash a ship to pieces on the sands in a short time.

The three who were drowned were Otto Anderson, a seaman, another sailor, name unknown, and a Chinese. The dispatches received by the company and the agents of the ship indicate that the lee which she struck was an iceberg. The ship was steaming at a fair rate when she collided and several plates were ripped off the port side.

The watertight bulkheads of the steamship did much toward saving her, according to the telegrams received by the company. As soon as the first crash occurred, the doors in the compartments were closed. This checked the rush of the water. Although the vessel is twenty-seven years old, she is still in good condition. A recent inspection proved that she was sound throughout. So far, no details have been received as to how the berg was struck, other than it was not seen by the lookouts and that it was almost totally submerged.

SMUGGLED SILKS

Japanese Steamer Passenger of the Tosa Maru in Trouble at Seattle

About \$100 worth of silk and small trinkets of jewelry was discovered in a false bottomed trunk from the Tosa Maru by the United States customs inspectors on arrival at Seattle from this port. The trunk was the property of Torukichi Nomura, of Tacoma. Nomura was returning from Japan with his wife and son. He came over as a stowage passenger. It is owing to this fact that as yet no charge has been placed against him. Stowage passengers are not compelled to declare their goods. The trunks, packed

ages and bundles are put in the hands of the customs officers, who examine them.

Nomura's trunk was most cleverly constructed. A false bottom, about three inches deep, was constructed in it. A fine lining was then pasted over the false bottom, concealing the finely fitting joints.

Inspector Osborne examined the trunk. He noticed the slight difference between the depth of the inside and the height. A closer investigation confirmed his suspicions and the false bottom was then broken open and was found to contain much rich silk, plush goods, pressed silks, handkerchiefs, and several articles of jewelry. A rough appraisal by the inspectors placed the value at about \$100.

KING'S NEW YACHT.

Princess Louise Christens the Alexandra at Glasgow.

The turbine steam yacht which has been built for the King at Messrs. Inglis's shipbuilding yard, Glasgow, was launched and christened on May 30th. Princess Louise, Duchess of Argyll, performing the ceremony.

The vessel, which was named the Alexandra, is of 2,000 tons burden, and will be fitted with turbines. She is expected to steam 17 knots an hour. She has been purposely designed for entering shallow waters at home or abroad, and her internal fittings are to be specially arranged to suit the King's requirements.

The new vessel is 300 feet in length and 40 feet broad. She has two funnels, and is rigged like a three-masted schooner.

SEALER SAILS

Umbrina Starts on Her Sealing Voyage—Ships Indians at Clayoquot

With a few of her Indian hunters on board and miscellaneous freight being carried to the west coast for the hunters the sealing steamer Umbrina, Capt. J. Haan, sailed yesterday for Clayoquot and Bering sea. Capt. Haan will ship a full crew of Indian hunters at Clayoquot and will then proceed north. The Umbrina is one of the independent fleet and is owned by Capt. J. W. Peppert who intends to send his new schooner Paschawha to this coast.

It is stated that but four schooners of the Victoria Sealing company's fleet will go north, the smallest number of vessels that has ever been sent to Bering sea by the company. The schooner Libbie, Capt. Delouchrey, sailed yesterday for Clayoquot and Bering sea. The schooners Markland, Alito I. Algar and Dora Steward will follow. It is doubtful whether the Otto will make the voyage north, owing to the difficulty of securing hunters.

The schooners Thomas F. Bayard and Umbrina of the independent fleet will be followed by the Jesse and Eva Marie.

LIGHTSHIP FOR SWIFTSURE

Dangerous Bank to be Well Supplied With Aids to Navigation

On Swiftsure bank, which lies off the entrance to the straits of Juan de Fuca and is without the territory of waters of Canada or the United States the Dominion government will shortly place a large acetylene beacon and automatic fog alarm bell and the United States government, which now maintains a large whistling buoy on the bank, will place a lightship there. The contract for the building of the lightship was given to a Quincy, Mass., shipyard on Thursday, the price being \$170,000 delivered at Tompkinsville from where the United States government will tow her to Puget Sound at a cost of \$15,000.

EMPRESS OF JAPAN

White Liner Leaves Yokohama for This Port with the Overseas Mail

Yesterday the R. M. S. Empress of Japan left Yokohama for this port with the Overseas mails and a large complement of passengers and is expected to make a fast trip across the Pacific being due to arrive here on Sunday, June 23. This steamer holds the record for the fastest passage across the Pacific, having made the run from Yokohama to Victoria in ten days and ten hours. The nearest approach to her time was made by the steamer Korea which was speeded from Yokohama to San Francisco omitting the usual Honolulu call in an effort to beat the white liner's record. The Korea made the trip in 11 days 11 hours and 29 minutes. The Empress of China recently made the voyage in 10 days 14 hours.

PRESIDENT'S FAST TRIP.

Broke the Record For Trip to Cape Nome From Seattle.

Steamer President, of the Pacific Coast Steamship Company, which reached Cape Nome on Wednesday afternoon, broke the record on her trip north. The run was made in seven days four hours. At Nome the approach of the President was announced by a wireless message to the station at Point Safety, while the steamer was still a day and a half off the point. Should the President be given the quick dispatch the company expects, she should have departed from Nome last night. When she arrives on the Sound she will be placed on the San Francisco-Puget Sound run of the Pacific Coast Steamship Company, calling regularly at this port with freight and to load cargo for San Francisco. The President is scheduled to sail from here on her first trip to San Francisco on June 27th.

NEW LIGHTHOUSE WORK.

Engineer of Marine Department is Here to Look Into Construction.

B. H. Fraser, engineer of the marine department at Ottawa, is in the city, having arrived on Thursday night, to look into the construction work to be carried on in this province. He said he was now looking over the local situation, and it was possible that other work than that scheduled will be carried out on this coast. Among other works planned is the construction of a first-class coast lighthouse and fog alarm station, which will be perhaps the best on the Vancouver Island coast, to be established at Estevan point, near Hesquelt. A site for the light has been cleared. The light will be of the order of the Pachena point lighthouse, but the tower will be higher. It is likely that this work will not be carried out until next summer.

RUSSIAN "DREADNOUGHTS"

Stated That Big Battleships Will be Built in Yards of the Czar

It is stated that the new "Dreadnoughts" which are to be built for the Russian navy will be laid down in Russian dockyards, although a few weeks ago it was "authoritatively" stated that for one "Dreadnought" had actually been placed with the Russian representative of Vickers, Sons & Maxim, St. Petersburg. The Russian "Dreadnought" will, it is believed be of 21,800 tons displacement, 21-knot speed, will carry ten 305 mm. (12 in.) guns, and will cost about \$11,500,000. It is admitted that if Russia does place orders outside her own country they will in all probability go to Barrow, where a very powerful cruiser for the Russian navy is now being completed. This vessel, the "Burek," has already had her dock trials, and she is now ready for her deep-sea trials on June 24. This vessel possesses many novelties in design, and is regarded by naval architects and experts as a very distinct advance, as a first-class cruiser. In fact, she is a combination between a gunboat and a modern cruiser, having the fighting power of the one and the speed of the other.

PANIC DURING WRECK

Davit Lines Were Cut and Numbers of Passengers Jumped Into Sea

Further advices from Cape Nome state that when the steamer Ohio collided with ice off Port Safety, near Nome, and a huge hole was stove in the bow causing the vessel to fill rapidly forward, a panic ensued during which davit lines were cut and lifeboats dropped and a number of occupants thrown into the sea. In all seventy-five persons jumped from the ship, or were precipitated from lifeboats onto the ice and into the water. The ships officers were cool but worked slowly.

Only for the efforts of Capt. Brown, First Mate Mills, Chief Engineer Raymond and Purser Allen, a disastrous loss of life might have resulted. The passengers and crew became greatly excited and made a rush for the boats forward at the grounding of the ship. By closing bulkheads of the compartments one and two, the officers of the ship did much towards saving the craft and the lives of her passengers.

The two bow compartments of the Ohio filled with water very rapidly, and she sank several feet forward. But there the water stayed and the engine room and after part of the vessel was fairly clear. When it became apparent that she would not sink the people in the boats and on the ice clambered aboard and the vessel was headed for Nome. There she was run ashore to prevent her from foundering.

FROM WEST COAST

Steamer Tees Returned Yesterday Morning From Island Ports

The steamer Tees, Capt. Townsend, reached port yesterday from Quatsino and way ports of the west coast of Vancouver Island, with a hundred passengers, and a small cargo including 200 barrels of whale oil for shipment to Glasgow and 75 tons of fertilizer for San Francisco. Among the passengers brought from the island coast were Mr. J. Macaulay, who is working the June group, a rich property on Quatsino Sound, Mr. Duryea and Mr. B. B. Burt, who have been investigating mining properties at Sidney Inlet, O. Steel, who has been looking over a timber property which he proposes to purchase at Nootka, Messrs. Tromp and Fellman, capitalists who have been looking over timber in Clayoquot district, Mr. Thorne, a capitalist interested in Quatsino district, Messrs. Davison from Clayoquot, Miss Kelling and Mr. and Mrs. Wood from Alberni. There was also a large party of loggers from the Mosquito harbor mills at Clayoquot.

At Sechart the whaling steamers Orion and Saint Lawrence continued busy, five whales having been taken on Wednesday, and when the Tees was loading at the whaling station a large sulphur-belted seal, said to be the largest brought to Sechart was being hauled out to be cut up. The Kyuquot station is rapidly nearing completion and it is expected the steamer Saint Lawrence will be sent to operate from that depot next month. Large numbers of whales were seen off the island coast by the officers of the Tees during the voyage.

The Tees sailed again for coast ports tonight, one day behind her schedule time. Among the passengers booked are, R. H. Wood, J. Kummer, Miss Blinn, Dr. and Mrs. Raynor, Mr. and Mrs. Pemberton, C. A. Roberts, H. W. Sessons, A. H. Richardson, and G. A. Huff, who is going to Alberni for a vacation having sent his steamer Tasmanian north to the summer.

MARINE NOTES.

The steamer Hyades, from San Francisco, via Seattle, for Cape Nome, passed up yesterday to load bunker coal at Comox.

For the past two days there has been a large quantity of lumber floating around off the mouth of the Columbia and it is quite evident that some vessel has lost her deckload, although the identity of the vessel has not been ascertained. The lumber consists of railroad ties, 2x4s and 3x4s. It was sighted both Wednesday and today by the bar tug Wallula about ten miles off shore.

The oil tank steamer Argyll, which lost an anchor and 150 fathoms of chain when she arrived in the Columbia river a few days ago, was able to pick it up before she left out for California on Thursday.

The American schooner Lyman D. Foster was towed to Nanaimo yesterday from Port Townsend to load coal for San Pedro.

The tug Dauntless, belonging to Mayers & Preston, of New Westminster, which has been aground at Cottonwood Point on the Fraser river for the past five days, has been refloated.

The Norwegian steamer Finn, which has arrived at San Diego from London with cement and general cargo, had an unusual charter permit for her cargo to be discharged at any port between Coronel and Puget Sound. After discharging at San Diego she will proceed to the Sound to load lumber for Fremantle, being under charter to the American Trading Company at 38 shillings. She takes cargo at Tacoma. The same concern has taken the Norwegian steamer Mathilda on similar business. The Mathilda will arrive at San Francisco about June 30th with coal from Japan, and will reach the Sound about the middle of July.

Steamer Tasmanian which has been chartered by J. H. Todd & Sons as a cannery tender has gone to the Skeena. She will be used in connection with the Inverness cannery. Capt. G. A. Huff gave over the command to

PETER'S
THE ORIGINAL MILK CHOCOLATE

"GALA—PETER"
The most healthful and delicious of Chocolates.
Lamont, Corliss & Co.,
Sole Importers,
Common St., Montreal.

Capt. Forrest and has gone to his home in Alberni for a vacation.

The trail-builders going to the west coast will leave by the steamer Tees tonight as previously stated. They are to be sent by the steamer on their next voyage leaving here on June 20. The number to be sent is not as great as stated, and instead of 100 men being employed the total number to be given employment is about thirty, of whom some will come from Alberni and district.

Already there is mutiny on the Snark and, strange to say, it is the captain who has mutinied. Captain Edwards found Mr. Jack London too hard a master. Socialism and the brotherhood of man do not work out on board ship, says the San Francisco Call. It seems that Captain Edwards resented the overbearing manners of Mr. London and thereat deserted at the first port of call, which was Honolulu.

The steamer Inveric pulled out yesterday from the Sound with a cargo of flour and general freight for Chefoo Dalny and other ports of North China. The steamer Hornelen, a Norwegian vessel carrying coal between Nanaimo and San Francisco on time charter has been remeasured by the San Francisco authorities and made to register 2660 tons instead of 2412. The German steamer Germanicus was changed from 2575 tons to 2177 tons. Ship Eclipse and bark Gerard C. Tobey have been chartered to proceed from San Francisco in ballast to load return cargoes of coal.

A wireless telegraph message was received on Thursday at North Head on the Columbia river from the United States ship Charleston, lying at San Delgo.

The Blue Funnel liner Titan, which left here on March 29 for Liverpool, passed Gibraltar on Sunday on her way to the Mersey.

It is stated that the Cunard company will soon be in the market for two new vessels, not so huge as the sister ships now building for them, but still of large dimensions and turbine-propelled.

The steel four-masted barque "Lyn-ton," 2324 tons register, has been sold to Messrs. Thomas Shute & Co., Liverpool, for £11,000, subject to survey.

DUTY OF THE CHURCH.

Toronto Anglican Synod's Declaration for Purifying Work.

Toronto, June 14. — At yesterday's meeting of the Anglican synod the following resolution was introduced by N. F. Davidson and adopted: "That it is the conviction of this synod that the greater purification of the political, financial, social and business methods of this country is imperatively demanded today, and that the church, her bishops, clergy and laymen should take a leading part in the immediate improvement of the present deplorable state of affairs."

Mr. Davidson asserted that the clergy were not intimately acquainted with the political, moral and social life of the very people to whom they preach from the pulpit. It is time to abandon generalities and deal with abuses as they exist in their particular localities. The time is here for the clergymen as leaders of true churchmen, to take a stand for purity and truth.

A new apparatus for fighting fire underground is being introduced in New York.

Assays of 8,000 ounces to the ton are reported from the three inch vein struck at the forty foot level of the City of Cobalt main shaft.

The Peres vineyards cover 115,000 acres, and yearly produce 4,000,000 gallons of sherry.

In two days the Grand Trunk carried 1,073 Toronto citizens to the Hamilton races.

BIG TIMBER DEAL IS CONSUMMATED

One Million, Two Hundred Thousand Dollars is Amount Involved

KLA-ANCH DISTRICT PROPERTY

Purchasers Will Spend Eight Hundred Thousand Dollars More in Developing Property

Fifty thousand acres of timber land in the Klamath River country, in the northern part of Vancouver Island has been sold to W. H. White & Co., of Boyne City, Mich., for the sum of \$1,200,000. D. Carmody, of Seattle, but late of Victoria, and Malcolm MacDougall, of Orillia, were the former owners. The deal is the largest that has been transacted in British Columbia in years. The land is estimated to hold 3,000,000 feet of fir, yellow and red cedar and white pine timber. Carmody and MacDougall realize an immense profit from the sale, having bought the lands at a much lower figure than a year ago. The purchasers are big timbermen of Michigan and are gradually increasing their holdings in the west. Vancouver Island is especially popular in view of the fact that the timber is more readily brought out to the mills here than in other districts.

The Michigan company plan to spend \$800,000 in developing the property on Vancouver Island, which will make their total investment here \$2,000,000. They will build a railroad twenty-two miles long from Robinson right into the interior of the area which they control, where they will build several sawmills. A line of steamships for their exclusive use is also contemplated.

Money in New York.

New York, June 14.—Money on call steady. Prime 2 1/2 per cent. lowest 2 1/2 per cent. ruling rate 2 1/2 per cent. last loan 3 per cent. closing bid 3 1/2 per cent. offered at 3 per cent.

The Mackerel Arrive.

Halifax, June 14.—After abandoning hope that the much prized mackerel would strike in on Nova Scotia this season, the fishermen on the coast west of Halifax were rewarded by one of the richest catches in recent years. The mackerel season is more than half over, and many of the large fleet of fishing boats which have been awaiting the arrival of the schools of fish from the south had sailed for their home ports, their captains believing that fishing would be a failure owing to the unprecedented ice conditions. Yesterday the mackerel suddenly appeared on the coast, and Nova Scotian shore fishermen at several points got large catches.

TRADE WITH THE DOMINION.

First Two Months of Current Year Show Net Increase.

Ottawa, June 14.—The statement of Canada's foreign trade issued by the customs department shows an increase in the aggregate trade of the country of \$7,696,000 for the first two months of the present fiscal year, that is for April and May. The total trade was \$94,701,678, as against \$86,277,584 for the same two months last year. There was an increase in the imports of \$12,922,984 and a decrease in the exports of \$5,226,830. This decrease was largely due to the backward season and partly to labor disputes. For the month of May there was an increase of nearly \$8,000,000 in the imports and a decrease of nearly \$2,000,000 in exports. The decreases for the two months were \$250,000 on fisheries, \$1,250,000 on forest products, animals and their products \$1,500,000, agriculture \$2,500,000, and manufactures \$500,000. There was an increase of \$500,000 in the product of the mines.

CENTRAL AMERICAN WAR.

Nicaragua Interferes in Domestic Affairs of Salvador.

Washington, June 14.—What amounts to an actual declaration of war between Nicaragua and El Salvador was contained in the reply of President Zelaya to an inquiry from Washington as to his connection with the recent attack on and capture of Acapulco. The answer came to the state department today in the shape of the following cablegram from American Consul-General Olvera at Managua, the Nicaraguan capital: "I am officially informed that in accordance with the Central American union plan, President Zelaya has dispatched munitions of war and troops in aid of Gen. Alvarado, the popular nationalist candidate for the presidency of Salvador. President Figueroa opposes the union idea."

BRITAIN'S ALIENS.

A Marked Decline in Numbers From Last Year.

There was last year a marked decline in the alien criminal population in Britain according to the annual report on the working of the Aliens Act. This is due to the power of expelling undesirable foreigners which has been conferred on magistrates.

As regards the admission of aliens the immigration officers refused leave to land to 365 persons in all, but the number was eventually sifted down to 120 being found of means and 123 on medical grounds.

An elaborate table shows that in London and certain provincial unions in England and Wales and Scotland 6,000 aliens received public relief last year. The number for the metropolis was 4,119, including 1,101 in St. George's-in-the-East.

With regard to the expulsion of aliens during the first year of the operation of the measure 418 recommendations with regard to convicted aliens were received.

McPARDLAND'S STATEMENT

Says Orchard Told Literal Truth on Witness Stand

Boise, June 14.—Capt. James McParland, the famous detective who has figured so largely in the testimony given in the Haywood case, and who has been attacked by the counsel for the defence, prefers not to be interviewed at length on the subject of Orchard's confession.

"It would be superfluous for me to relate it," he said yesterday "Orchard has told the literal truth about the confession, and the way it was given to me. I made no promises, I never made a promise to a criminal in

THERE ARE MANY BAKING POWDERS

BUT THERE IS ONLY ONE

MAGIC BAKING POWDER

It is Pure, Wholesome and Economical
SOLD IN ALL SIZES.

E.W. GILLETTE COMPANY
TORONTO, ONT.

my life. Orchard first confessed to me, but said he was not quite ready to give it to me finally. I promised to hold it for some time, and I did so. He told me when he was ready to tell the whole story that he would let me know and some time later he again told me the incidents of his life, leaving out nothing. Every word that he has said on the stand as to confession is the truth, and there is nothing to add."

The state expects to close its case in ten days or two weeks. Clarence Darrow, for the defence says their case will take about four weeks, though it is possible it may be concluded in less. It is generally conceded however, that a verdict will not be reached before August.

There will be an adjournment tomorrow until Monday afternoon or Tuesday. The defence says their case will have to hold court on Monday morning at Caldwell. The case of Harry Orchard charged with the murder of Frank Steunenberg, will be called in Caldwell and he postponed until next term.

Orchard who reached the climax of his testimony yesterday, and whose sensational story came to an end in a dramatic manner, pleaded for the defence leaving him pleading for the life of a fellow murderer, returned to the penitentiary after he left the court room. Warden Whitney said the prisoner appeared to be in better spirits than he has before for many months. He shows not the slightest evidence of fatigue or nervousness, and ate a hearty meal after he reached the penitentiary.

MUSICAL PROGRAMME FOR RACE MEET IS ARRANGED

Nanaimo City Band Will Be Here Next Saturday Instead of the Vancouver Band

The musical programme for the big race meet at the fair grounds next Thursday, Friday and Saturday morning under the auspices of the Victoria Driving Club was arranged at a meeting of the committee held last evening at the Elford hotel. The Vancouver band, which it was understood would play on the second day, cannot come, and the Nanaimo band has been engaged in its place. The band for the opening day will be Wagner's Seattle band, which will come over with a special excursion from there. On the second day the fifth regiment band will supply the music. On Saturday a special excursion will come from Nanaimo with the band from there.

Several additional horses arrived at the fair grounds yesterday for the races. Another bunch from Seattle will come in today.

"Sir," ran the message of an aggrieved mother to her boy's teacher. "If you are tired of my boy, can you send him to me? He is more handy to me than he is to you and his head is like mine. He is old enough to earn me something now he can't eat books."

The King and the Czar.

London, June 14.—A report is current in court circles that King Edward proposes paying a visit to Emperor Nicholas. The monarchs are to meet in the Baltic. It is stated, in much the same circumstances as that of the Kaiser and Nicholas some eighteen months ago. It is said the meeting will take place immediately after the Cowes regatta.

Vancouver Woman Disappears

Vancouver, June 14.—The mysterious disappearance of Mrs. Paul Langley, of 562 Keefer street, is causing a great deal of anxiety to her husband and relatives. On Tuesday evening she went down town for the purpose of procuring some medicine for her four-month-old child, and since that time she has not been seen. Her husband had just returned partly convalescent from the hospital, where he had been confined by a crushed foot. Mrs. Langley was said to have been in a distressed state over her husband's affliction. It is feared that in her dependency she may have done herself some deadly injury.

RAILWAY INVENTIONS

Many Have Come About as the Result of Accidents

Fatal accidents on railroads have led to a great many inventions which minimize the risks to which passengers and railway servants are exposed. Many persons met their death through the defective fastenings of the carriage doors, or by carelessly opening them at the wrong moment. Now every railway carriage has its patent fastening, in addition to which many are furnished with a special safety catch.

The risk of a collision on the line is to a great extent averted by the invention of the block system, whilst the work of coupling carriages always attended by a certain amount of danger, is rendered safer by a new method devised by a railway servant.

The advent of electric trains and trams has added quite a number of inventions to the list of patents, owing to the fatal accidents which occurred. More than one person was killed through coming in contact with the overhead electric wires, and the following drew attention to the danger, with the result that inventions were soon forthcoming which acted as a safeguard.

Requests also were responsible for life-saving guards on electric tramways too.

SMALL FRUITS WILL BE AS GOOD AS USUAL

Members of Fruit Growers Association Are Pleased With Prospects

The general belief that the unusually dry weather which has been experienced in Victoria and vicinity for the past two months would seriously interfere with the development of the crops of small fruits, such as strawberries, cherries, etc., is altogether erroneous, according to the members of the executive of the local Fruit Growers' Association. At their meeting yesterday afternoon the outlook was discussed, and all were of the opinion that the products of the agricultural districts of the southern end of Vancouver Island would equal that of previous years, both in quantity and quality.

"We're not kickers," remarked the president of the organization in conversation with a Colonist reporter. "Although a little more rain at this season would benefit the strawberries to some extent, I do not believe that the fine, though moderate, weather of the past few weeks will do the berries as much injury as was predicted. The season has been good and, although none of us are kicking, we would not object to a few more drops of the refreshing beverage just to freshen up the fruit and hasten their reaching maturity."

From other sources much the same information is received. The strawberries and other small fruits grown in sections bordering on Victoria are doing splendidly. The orcharders are receiving considerable quantities from the fruitgrowers, but the height of the season has not yet been reached. Already regular shipments are being made to Vancouver, Interior provincial points and to the Northwest. On account of the demand for berries from outside points it is scarcely probable that the prevailing prices will fall much below those now in vogue. They may decline to the extent of five cents a box or thereabouts for a short time, but not for long.

Gave Indians Liquor

Vancouver, June 14.—Provincial Constable Munro had a batch of prisoners yesterday morning. A story that white men are selling whisky to Indians in the Squamish district took Constable Munro there on Wednesday. He arrested two white men, McDonald and Glandon, and brought them down with him. Just as he was stepping off the boat he noticed a drunken Indian named Dan Jacobs. He arrested him, and at the same time took possession of a large trunk, which he discovered to be full of bottled liquor. When Jacobs came up in the District Court yesterday morning he was fined \$5 for drunkenness, and \$25 for having whisky in his possession. Two white men, McDonald and Glandon, pleaded guilty to supplying liquor to Indians and were each fined \$50 and costs.

William Dewar is the Liberal candidate in North Brant for the legislature.

BASEBALL BREVITIES

Jimmy Collins, the former Boston manager, has been traded to Philadelphia for Knight.

Pitcher William Dingen, of the Boston American League team, has been traded to the St. Louis team of the same league for Pitcher Jacobson and a cash bonus of \$15,000.

A discussion of the proposed pitching party of twenty baseball players, including newspaper men, managers and players, a vote was taken as to who is the best pitcher in the country today. The result was that Mordecai Brown and Doc White got three votes each, while Walter Johnson, Ed Egan and Eddie Plank got two each. Overall, Pfeffer, Howell, Walsh, Leever, Beebe and Mathewson got one each.

That the "spit" ball pitcher is growing to be the evil that Fledler Jones predicted is shown by the pitcher's averages. Grace over the last three weeks, six out of seven; Dygert five out of six; Orth seven out of eleven, while Liebhart and Howell have broken even. Then there is George Muller, who has used the spit ball more than a little, although not dependent upon it entirely. He has won seven out of ten. The only three "vapor" floaters who have not been successful are Winters and Oberlin, who have a tail-end team behind them.

A despatch from Weiser, Idaho, says the Weiser baseball club of the Idaho League has developed a phenomenal pitcher. He pitched fifteen seven innings without a run being made off his delivery. The world's record is held by a pitcher who pitched six straight four innings, and a single run being scored against him, in a game in this city two weeks ago, with the Boise club of the Idaho State League. He struck out nineteen men, the first eight men that faced him, but out eight men and struck out ten of the opposing club pitched third base.

His name is Walter Johnson, and he is a native of California. He is nineteen years of age and is tall and strong as an ox. He has arms that for length will put Fitzsimmons to blush.

Manager Griffith, of the New York American League team, has announced that he had released James McGuire, the veteran player, in order that he might accept the position of manager of the Boston American League team.

One of the New York critics not inaptly notes that "National League teams are still too timid about the squeeze. It can't be played by reaching for the plate with one foot and keeping the other on the third."

Many arm races have been given employment by American League clubs, thus far this season, of course New York leads with 25 men who have participated in games. Boston has 22, Cleveland, 21 Chicago and St. Louis 20, Washington and Detroit 19, and Philadelphia 18. A total of 164 Cleveland has more players who have not taken part in a game, DeLahanty and Clarkson.

The index finger on Pitcher Nelson's pitching hand was broken in Tuesday's game at Spokane. Nelson said that the first joint was only dislocated, but an examination showed a fracture of the small bone of the first joint, and it is quite unlikely that Nelson will be able to pitch any more games for a while.

CRICKET MATCH TODAY

Collegiate School Eleven Will Meet Queen's School, of Vancouver

The Collegiate School Cricket Team will play Queen's school, Vancouver, this morning, commencing at 9 o'clock on the Jubilee hospital grounds. The following boys have been selected to represent the teams:

Queen's school—E. G. Langley, (captain), T. H. Roberts, H. C. V. Macdowell, F. L. Baker, R. W. Dickinson, H. Wade, F. Newman, G. Polio, C. P. Otter, S. F. McGulgan, J. A. Skinner, Reserve—J. Tallow, Collegiate school—T. W. Wilkinson, (captain), A. H. Benson, T. D. Low, N. B. Hall, H. Larson, K. Wilkinson, A. Grant, P. Smith, W. H. Kingsley, J. W. Ludgate, B. Montelth, Reserves G. S. Davy's, R. Stirling.

Englishmen Get Bouts

"Johnny" Summers, the English featherweight, and "Young" Ernie have been matched to box six rounds before the National Athletic club of Philadelphia on June 19. "Willie" Fitzgerald and Harry Greenfield, of England have agreed to box six rounds before the Washington Sporting club of Philadelphia the latter part of this month.

University to Enter Crew

The University of Washington will enter a crew in the four-oared event at the N.P.A.A. regatta in Seattle next month. The crew will consist of Lowry, Jarvis, Willis and Lovejoy.

Squires Engages Seconds.

Bill Squires has engaged a new sparring partner in Ed Hagan, who has won recently in the four-round game in San Francisco. Hagan was formerly a member of the Australian. He had heard so much of Squires' hard-hitting ability that he was almost entirely on the defensive. When Hagan stood up to the work Squires tried his body punch, which is his most punishing move of attack. Squires answered by the best developed punch of the men who would second him in his fight with Tommy Burns. These are Eddie Hamilton and Tim McGrath. The latter has long been a familiar figure in the corner when a championship fight is on.

Will Be Lasker's Partner.

Winnipeg, June 14.—Dr. Lasker, champion chess player of the world, during his brief visit to Winnipeg last week, was so greatly impressed with the skill of Magnus Smith, the Canadian champion, that he honored him with a check of \$100. Dr. Lasker, Editor, to you and your readers to know how business is done by the license commissioners of the Oak Bay municipal council. The minutes of the last meeting were read and approved. For the meeting read, protests heard, applications made, business done and adjournment affected in the phenomenally short space of about fifteen minutes. Although these applications were made by organizations of the city of Victoria, we were informed by His Worship, the chairman, that "no right citizen of the city would object to the license of the city. Have not the citizens of the city the right to protest against the municipal council's decision to license the city? Have not the citizens of the city the right to protest against the municipal council's decision to license the city? Have not the citizens of the city the right to protest against the municipal council's decision to license the city?"

It is matter of public knowledge that the majority election of last year was a complete declaration of the citizens of this city for the restriction of the liquor business. The Agricultural Fair committee of the city, the request of the committee of the Agricultural Fair committee for a license is the request of the city. The action of the committee and the mayor as a result of it is a declaration of the wishes of the citizens of Victoria who are of government is this, Mr. Editor, I am sure that you will be pleased to have this statement of the citizens of this city for your valuable space.

Thanking you for your valuable space, I am, Sir, very respectfully,
E. L. ROY DAKIN,
Pres. Citizens League.

WILL REPRESENT VANCOUVER.

Terminal City Athletes to Compete at Seattle Next Saturday.

Vancouver, June 14.—Vancouver will be represented by a crack team of athletes at the annual meet of the Pacific Coast Athletic Association which will be held at Seattle on Saturday, June 22. Not only will this city be represented at the big meet on the Sound, but local athletes will also be given a chance for places on the team which will be sent to the A. A. U. meet at the Jamestown exposition.

The officers of the Vancouver Athletic Club have chosen four of the best men in the city to go to Seattle. W. R. Chandler, the champion long-distance runner of British Columbia, which will be one of the features of the big meet, and the local boy, who is running in fine form, should be able to carry off honors in this event.

W. P. Ogilvie has been entered in the shot put, 16-pound hammer throw, discus throw and 56-pound weight.

The club will be represented in the 880-yard run and one mile race by H. S. Hyde, one of the best long distance men in these parts.

Harry Gillies, the husky policeman, is doing fine work with the weights. He will compete in the 16-pound shot put, 16-pound hammer and 56-pound weight.

Austin, a well-known local athlete, will also go down for the big meet.

The club has engaged George Paris, trainer of the Vancouver Lacrosse team, to handle the athletes, and he will look after them from now till the day of the meet.

The local club has become affiliated with the Pacific Northwest Association. The application form was filled out by the local officers and forwarded to the N. C. A. A. at Spokane, accompanied by the membership fee.

Burns at the Ringside.

San Francisco, June 14.—Tommy Burns, who has been enulating Jim Jeffries in mountain climbing feats at Harbin Springs as a change from the ordinary training methods he has had so much of during the past few months, has taken a flying trip to Los Angeles to watch the Jimmy Burns-Montana Kid match. The lightweight named met in the ring this evening. Burns will be back at the springs Monday.

He is backer and manager of Jimmy Burns, who at one time was known as George Armstrong, and believes his protégé is the coming champion of the world in his class.

A check of \$10,000 was posted several weeks ago by Tommy Burns in behalf of Jimmy Burns, accompanied by a challenge to Jimmy Burns by the Montana Kid, said check will be regarded as the first deposit of a side wager of \$5,000. The money is still uncashed.

JAPANESE LACROSSE TEAM.

Toronto, June 14.—The Japanese are not only desirous of conquering the world at war, but also in athletics. Their runners are being to Canada next spring, and with them a lacrosse team, who will challenge for the Minto cup.

A gentleman in Yokohama, writing to a friend in Toronto, says the Japs are as proficient at our national game as they are at their own, and for fast, quick stick-handling, thinks they will surprise us fleet-footed Canucks. In Yokohama and in Tokio there are several clubs, though more especially in

the former place, where they really think they have an aggregation of world-beaters that would go through this rough-hewn Caps. The Japs, with little effort, the team to come to Canada would be composed of the sons of rich merchants, which will come as a great relief to, say, the Caps, who since their English trip simply detest playing against men who are not tired and have to work for their living.

LETTERS TO THE EDITOR

Noxious Weeds.

Sir:—I have read with pleasure articles re weeds in your paper of 12th and 13th. It is quite true something must be done to get rid of the curse. I own some land near town and have it all clean, yet my neighbors, and I may say nearly every where people have dirty weeds, and no amount of talk will make them wake up to this grave danger. I would not have purchased this land had I known how slovenly the people were about their land. It is a disgrace to the community. The climate was the attraction, nothing else, for all other things seem dead.

In your paper of the 12th, you do not like to publish one of your correspondents letters because it is grossly unfair to your city. As a citizen I would like to know how others see us. If he is right, it does no harm. Of course, the truth sometimes hurts perhaps that is why you desire to refrain from hurting the people. I would not like to see a city where the people are so slovenly. Are you always so considerate?

HARRY TYNDELL,
Victoria, June 14.

Licenses at the Driving Park.

Sir:—If you will allow I would like to say a few words in regard to the licenses to sell liquor on the "race track" and "fair grounds." I will endeavor to say what I think is the most proper and flaming spirit of righteous indignation will allow.

All honor, say I, to the noble women of the W. C. T. U. who by their recent vote have decided to have nothing to do with an affair that cannot be successfully run (3) without the profits are taken from the granting of a license to sell liquor. Certainly it is the only logical and consistent stand for such an organization. Every man and woman who is a member of the cause of right should stand with the women of the W. C. T. U. Every one who loves his children and his country better than a paltry dollar should join in this action. I am sure the ladies of the W. C. T. U. and your readers to know how business is done by the license commissioners of the Oak Bay municipal council. The minutes of the last meeting were read and approved. For the meeting read, protests heard, applications made, business done and adjournment affected in the phenomenally short space of about fifteen minutes. Although these applications were made by organizations of the city of Victoria, we were informed by His Worship, the chairman, that "no right citizen of the city would object to the license of the city. Have not the citizens of the city the right to protest against the municipal council's decision to license the city? Have not the citizens of the city the right to protest against the municipal council's decision to license the city? Have not the citizens of the city the right to protest against the municipal council's decision to license the city?"

Thanking you for your valuable space, I am, Sir, very respectfully,
E. L. ROY DAKIN,
Pres. Citizens League.

Winnipeg Vancouver Victoria

Fruit Acreage and Fruit Homes

Vancouver Island is one of the best FRUIT GROWING, DAIRY FARMING and POULTRY RAISING Countries in Canada. For this reason we are making a specialty of Fruit Farms and Fruit Acreage. We quote a few below:

15 ACRES EXCELLENT LAND, all under cultivation, a full bearing orchard, 6 years' old; comfortable house, splendid barns and other out-buildings, including horse, cow, and implements; only \$18,000, terms easy. Surely this is a bargain.

35 ACRES GLANFORD ROAD Good land, all cleared, young orchard, new 7 roomed house, modern, water, barn and other buildings. Price low and easy terms. This is a good buy.

BETWEEN 7 and 8 ACRES, Overlooking Oak Bay, all very choice land, particularly suitable for sub-division, being only a few minutes walk from car line. This is the best bargain on our list being less than half the price of surrounding property. Look into this. It will pay you.

LATIMER & NEY

16 TROUNCE AVENUE

PHONE 1246

SALT SPRING ISLAND

FINE FARM OF 840 ACRES WITH STOCK AND IMPLEMENTS. ONE AND A HALF MILES OF SEA FRONT. ORCHARD OF NEARLY 2,000 TREES BEARING. VALUABLE TIMBER ON UNCLEARLED PORTION.

This property is for sale at an extremely low figure, and at a price far lower than similar properties in the Saanich or Cowichan districts. The island is well known as one of the best FRUIT PRODUCING DISTRICTS in British Columbia, and the orchard on this particular property is without doubt the best on the Island.

Good Five Roomed House, all modern, on North Park Street, with stable, \$2,100. Cheap.

Farm of thirty-eight acres, in North Saanich, 16 acres cleared, balance small alder bottom, with creek running through property, wire fenced, close to Sidney, \$100 per acre. This is cheap.

Two Four-Roomed Houses, in good repair, on one large lot, in good locality. Cheap at \$2,500.

Full sized lot on Yates Street, near Cook, with small house, \$4,200. \$700 cash.

We have several fine pieces of acreage, from 1 to 25 acres, on Burnside Road, 3½ miles from city, with waterfront. Prices from \$100 to \$850 per acre.

Six Roomed House, all modern, just off Dallas Road, \$2,700. A good buy.

UMOOLA

Oak Bay Avenue

This well appointed RESIDENCE and two large lots, well covered with shrubs and trees, at—

\$7,000

Waterfront property English Bay, Vancouver. Ask for particulars. Two acres near Oak Bay park, good land, all cleared, two frontages, at \$3,500.

130 Acres; 30 cleared, water laid to all buildings, a going concern with an established dairy business bringing in one hundred and fifty dollars per month, young orchard brought in \$200 last year, lots of timber close to the sea front, no rock, could easily clear the balance of the land which would bring in quite a revenue. House not very good, but the outbuildings are in a good state of repair and quite convenient; the whole, including stock and implements at \$12,000. Further particulars on application.

IN THE SUPREME COURT OF BRITISH COLUMBIA

IN THE MATTER of the "Companies Act amendment Act, 1906"—and—

IN THE MATTER of a certain Trust Deed bearing date the 23rd day of February, A.D. 1907, and made between The British Columbia Electric Railway Company, Limited, of the one part and The British Empire Trust Company, Limited, of the other part.

Notice is hereby given that an order has this day been made by the Honorable Mr. Justice Irving, extending the time for the filing of the above mentioned Trust Deed for securing a 4 1/2 per cent perpetual debenture stock under the provisions of the above mentioned Act until and inclusive of the 12th day of June, 1907, unless objections thereto be filed with the Registrar of the Supreme Court of British Columbia, at Victoria, B. C., on or before the 11th day of June, 1907.

McPHILLIPS & HEISTERMAN, Solicitors for the British Columbia Electric Railway Company, Limited.

Dated this 30th day of May, 1907.

NOTICE is hereby given that sixty days after date I intend to apply to the Hon. the Chief Commissioner of Lands and Works for a four years' lease of the following described lands situate in Esquimalt district, Province of British Columbia, viz: Section (110) one hundred and ten, Esquimalt district.

Dated at Victoria, B. C. this 4th day of March, 1907.

CONSERVATIVES

ARE GRATIFIED

Members of Party in Victoria Are
Pleased With Premier
McBride's Success

MUST KEEP UP THE FIGHT

H. Dallas Helmcken Says British Columbia Must Continue Struggle for Better Terms

The announcement that Hon. Richard McBride, premier of British Columbia, has succeeded in having the words "final and unalterable" struck out of the amendment to the British North America Act, now before the Imperial parliament ratifying the re-arrangement of the financial subsidies to be paid to the respective provinces by the Dominion, as agreed to by Sir Wilfrid Laurier, has been received with marked gratification by the Conservatives of Victoria. Although no official action has yet been taken by the Liberal-Conservative association, a number of members have taken occasion to forward their congratulations by cable to the premier. It is stated that a resolution of commendation will be introduced at the next meeting of the organization mentioned. One of those who lost no time in congratulating Premier McBride on his success was H. Dallas Helmcken, K.C. Last night Mr. Helmcken stated that he considered that the outcome of the representations made in behalf of British Columbia to the Colonial office could fairly be termed a signal of triumph. The words "final and unalterable" included in the

amendments presented by Sir Wilfrid Laurier doubtless would have been accepted by the home government in the ordinary course had not the provincial administration taken prompt action. In view of that fact he could not understand the ground on which it was argued that the efforts of the premier had been fruitless. It was now open to the province to continue the fight for better terms. The situation, he said, reminded him of the story told of two frogs which had inadvertently become incarcerated in a can of milk. The one abandoned itself to what appeared the inevitable but the other continued "kicking." Ultimately the churning formed a pat of butter and the energetic frog was enabled eventually to escape. That was the position of the province. Its representatives would have to keep on "kicking," and, although it might appear a hopeless task, British Columbia would, finally, obtain some measure of justice. There was no question that the claims of Premier McBride and his colleagues were well founded. Therefore, sooner or later, they would have to be recognized.

RURAL TELEPHONES.

Delta Farmers' Mutual Company Begins Negotiations With Other Concerns.

New Westminster, June 13.—A movement, which will result in the amalgamation of the three mutual telephone systems now in operation by the farmers in the New Westminster district is developing. Should the plans work out it will not be long before the whole district to the south of the Fraser river from Ladner to Chilliwack will be covered by a mutual telephone system, having connections with the service at Mission, the recently formed Burnaby-Coquitlam Telephone Company's lines, and with exchanges in this city and in Vancouver.

The managers of the Delta Farmers' Mutual Telephone Company are supporting the move to merge all the systems. This company covers the whole Delta district. Recently the Vancouver council proposed that if the company extended its service to the city limits, it would see that the concern got an exchange in the city. Should the British Columbia Telephone refuse to cooperate, the privilege of planting poles on the streets was promised.

The Burnaby-Coquitlam Telephone Company already has been granted a right of way into the city from the east, and connections will be made with the Farmers' Mutual system at Mission, which covers the greater part
